HEIRLOOMS

ADD SOME PATINA TO YOUR LIFE

In the beginning (1991), Sam Stoltzfus started a full-time business in a horse barn making nothing but flower planters. In the years that followed, Sam added a whole lot more products, dedicating himself to a labor of love: creating a thriving family enterprise founded on hard work, honesty, and honoring the Lord. Today, Vintage Creations by Sam is a major enterprise offering furniture lines for dining rooms, bedrooms, living rooms, foyers, offices, bathrooms—even attics. What do all the pieces have in common? Fabulous finishes, with an antique appearance that's stunning to behold. Over the years, Sam and his team have become experts in the fine art of producing distressed and antique finishes, from milk paint techniques to crackle surfaces with durable catalyzed lacquer glaze. Whether sprayed on, hand brushed, or hand rubbed, the finishes are the work of artisans who produce the very finest heirloom quality pieces they can. You'll be delighted to have them grace your home.

DINING ACCENTS

After the table and chairs, the most important pieces in a dining room are the accents—hutches, buffets, bookcases, and pantries. Microwave cabinets. Corner cupboards to display curios or store tablecloths, dishes, and dining room decor. Dry sinks, utility cupboards, and sideboards. Bookcases, jelly cupboards, recycling bins. Hunt boards, consoles, cutlery trays, and nesting trays. Let's face it, with variety like that, your dining room accent is definitely here!

BENCHES

Our variety of bench designs is staggering. More than any other piece, the bench spans a range of styles that stretch the meaning of the word as far as it can go. Basically, if you can sit on it, it's a bench. From there, the sky's the limit as to its form and function. Tall benches can double as coat racks or include armoires. Wide benches can open up for storage or incorporate cabinets. Low benches, made simply for sitting, can fit along a wall, taking up little space, or sport bowbacks to add elegance.

OCCASIONAL

Another group that includes wide variety in both function and beauty, occasionals can stay put or get put away, as need dictates. Choose from coffee tables, lamp tables, side tables, tables with drop leafs, chests, and more. A particularly elegant, modern piece we love is the three-sided coffee table pictured at left. It combines both the traditional and the futuristic in one piece. Once you pick your occasional piece, remember,depends on the finish.

MILK PAINT

An ancient finish, milk paint dates back thousands of years, being found in Egyptian pyramids and in cave wall paintings. It's been used on furniture in America since our nation's founding. The perfect paint for creating vintage and distressed pieces, it needs to be seen in person to fully appreciate its beauty. Besides being great on the eyes, milk paint is safe for people and the environment. It's made entirely of natural ingredients: casein (milk protein), clay, limestone, chalk, and iron oxide pigments.

BEDROOM

It all starts with the bed itself. Choose a panel bed, pencil post bed, or sleigh bed, then order the fabulous finish that will make jaws drop. Next, compete the suite with matching chests of drawers, chest-on-chests, armoires, dressers, end tables, and phone stands. Other bedroom pieces for your vintage sleeping area include kettle house shelves, Yankee cupboards, and bookcases.

And how about an armoire that can house your TV, hidden behind doors when not in use? Create a bedroom that inspires good dreams.

RUBBED FINISHES

Our rubbed finish gives each piece of furniture a slightly worn or vintage look. We begin with a paint finish then "rub it away" on the edges and around places where hands may have naturally done the same thing from years of use. We then seal the finish with a satin clear coat.

*Colors may vary.

STAINS

CRACKLE FINISHES

Our crackle finish is even more rustic than our rubbed finish. We start with a base coat of white paint, and then cover it in a secondary color, which we crackle. This allows the undercoat to peak through; giving the piece a distressed antique patina. We then apply the rubbed finish to the edges making sure we add some additional dents and dings for added charm. This finish is also sealed with a satin clear coat.

*Colors may vary.

DISTRESSED FINISH

Our distressed furniture is finished with our high quality finishes, with lightly rubbed edges & wear spots to create a time worn feel.

ANTIQUED FINISH

With our antique finish option, we can create an antique of yesteryears. Our specialized techniques of creating the aged look, will have your friends and neighbors, guessing how long your furniture goes back. All of our antique finished furniture is top coated with a dull precatalized varnish to protect the crackle & preserve the antique look.

MILK FINISH

Milk Paint is a hand brushed, slightly crackled finish and top coated with a hand rubbed wax. Milk paint is organic, non toxic, environmentally safe, and durable. It is made from natural materials such as milk, clay, lime, etc, and tinted with earth pigments. This is the finish that was used in Early American times.

Milk Paint is great for any room in your home, and tough enough for hotels and restaurants. Today milk paint is still being used by artists, architects, and designers striving for a look that is authentic, durable, and beautiful.

VARNISH TOP COAT:
Our varnish top coat is an option for all distressed finished items. The varnish finish is a satin precatalized clear coat that enhances the depth of color, creating a smoother finish & added protection. It is resistant to most household chemicals.

TWO TONE FINISH:
We offer our pieces in a two tone finish. (Example: Painted table base with stained top.)

SOLID PAINT FINISH:
This finish option, consists of a solid painted surface without any form of distressing techniques.
