

Investment Philosophy

Titan utilizes a tactical investment approach that adapts to the current market environment with the goal of delivering above market, risk-adjusted returns with lower drawdowns than market indices like the S&P 500. Our strategies seek to participate in up markets while protecting capital during down markets. We rely on our proprietary quantitative models to remove human emotions from the investment process and objectively navigate the global markets. Our models have built-in exit strategies to contain drawdowns. We also use Protective Stop Alerts held on our software to minimize losses.

Strategy Objective

The Titan Focus 20 strategy seeks to outperform the S&P 500 during bull and bear markets. This is an individual stock strategy that allocates to 20 stocks when both of our trend models (Alpha and Omega) are positive. There is 50% exposure to stocks when one model is positive and 0% exposure when both models are negative. There are no fixed allocations. The strategy can allocate 100% to stocks during up markets and 100% to bonds, T-Bills and other asset classes during down markets.

DISCLOSURES

Titan Capital Management, LLC is an SEC registered investment advisor. Performance results are presented in U.S. dollars and are net-of-fees and trading expenses and reflect the reinvestment of dividends and capital gains. The applicable fee schedule is 1% on the first \$2 million and 0.75% thereafter. Actual fees may vary based on the nature of the relationship and there may be certain accounts included in the composite that do not pay fees. Including non-fee paying accounts in the composite performance may result in higher performance than if the applicable fee schedule was applied to all accounts. A small test account was used in 2016 and client accounts were added to the composite in 2017. The S&P 500 Total Return Index is an unmanaged index consisting of 500 common stocks with dividends reinvested and is provided as a representation of the U.S. stock market for informational purposes. Titan believes that the performance shown was generated with an investment philosophy similar to that described in the Titan brochure. Changes in investment strategies, contributions or withdrawals may cause the performance of your portfolio to differ materially from the reported composite performance. The information in this report is believed to be reliable, but this is not a guarantee. Past performance does not guarantee future performance. To receive a complete list and description of the firm's composites, please contact the firm at the address listed.
