* The PFC and LAC do not currently have the technology to allow those joining online to fully participate as if they were in the room. If you are joining the meeting online, we can not guarantee you the same experience as those who are in attendance.

The Payette Forest Coalition Land Allocation Committee will review and recommend improvements to current forest designations and their boundaries in an effort to preserve and enhance recreational opportunities, economic stability, resource protection, and respect for all users.

Tonight we find what we can agree on.
