DECK ACCESSORIES

INDUSTRIAL HEAVY DUTY SOLUTIONS TO DECK SAFETY

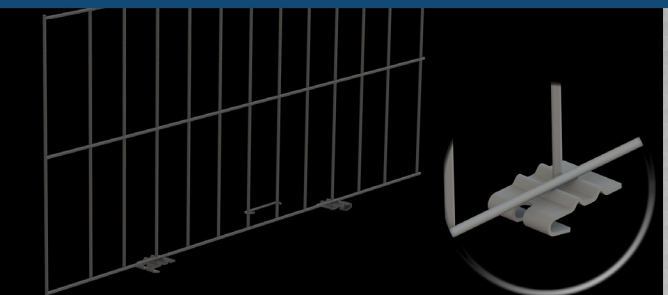

RACK UPRIGHT FLUE SPACER

ITC Manufacturing Rack Upright Flue Spacers are built to order and designed to keep material out of the rack transverse flue space. ITC's tension mount design allows for easy installation while satisfying local fire codes.

FINISH:

Powder Coat Grey

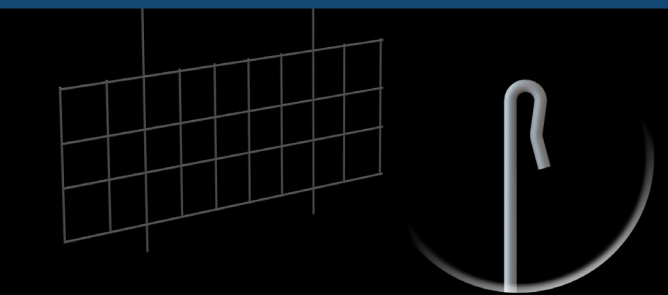

STANDING DIVIDER

The new design of ITC's Standing Divider offers an improved foot plate design that allows the Standing Divider to sit more securely on the wire deck. This new foot plate design in conjunction with ITC's center mounted tension wire creates the most secure Standing Divider in the industry.

FINISH:

Powder Coat Grey

HANGING DIVIDER

ITC's new R-Hook design allows for a more secure fit that is unlikely to become dislodged while still offering easy installation and beam to beam division.

FINISH:

Powder Coat Grey

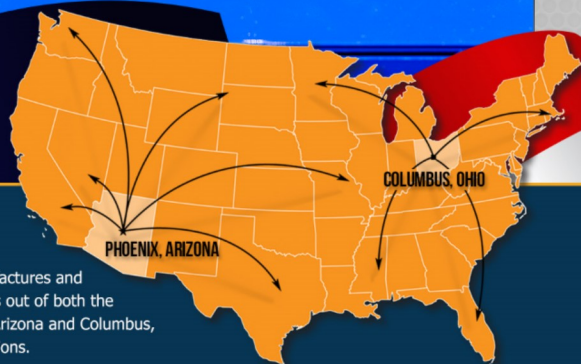

PERFORATED SHEET DECK

Perforated sheet metal deck leaving 50% open area for fire code compliance.

FINISH:

Powder Coat Grey

ITC Manufactures and Distributes out of both the Phoenix, Arizona and Columbus, Ohio locations.
