TANK REPLACEMENT CONSTRUCTION TO BEGIN

Over the next two years the District will replace seven aging drinking water storage tanks, including the green, one-million-gallon tank, located on the corner of Shelter Cove Road and Beach Road. The project is being fully funded with a Prop 1 California State Water Resources Control Board grant in the amount of \$4.7 million. The bidding process will commence on February 5th with work scheduled to start on May 1st, 2018.

Please be aware that throughout the duration of the construction work there will be unavoidable water outages when tanks are being pulled off and put online. We will strive to make these outages as short as possible and we will give as much notice as possible to affected customers. Water discoloration will also occur when pipes are disturbed. Although unavoidable, the water is safe to use, but we will strive to flush lines to keep this issue to a minimum.

Holiday Announcements:

The District offices will close on Monday, February 19th, 2018 in observance of President's Day.

FIRE DEPARTMENT NEWS

March is Tsunami Awareness month:

If we experience a large earthquake in our area, please make your way to higher ground in case there is a tsunami. Please do not wait for confirmation from emergency services. The Fire Station is out of the tsunami zone and is a designated emergency shelter.

COMMENTS: We encourage your comments, so please use your bill stub to provide feedback regarding matters within the District's control.
