Hebrews 9:1-28

Friends, this evening we will go through the entire ninth chapter (hopefully), verse by verse, just as we have for the earlier chapters of the book. But because this chapter is a summary of the previous chapters, any notes I might provide would be a recitation of previous notes/chapters.

For that reason, I am not providing any new notes for chapter 9. Tonight, we will walk through the chapter, verse by verse, making reference to previous chapters/notes and introducing the new material of chapter 9, material that is actually based on the rehearsal of insights covered in previous chapters.

I hope that is understandable. If not, you'll see if clearly this evening as we work through chapter 9.

See you this evening.
