The New Picture Day Experience

Steps we're taking to improve safety on Picture Day

While photography sessions may look different this year, as a trusted partner, our goal remains the same; to ensure you receive this essential photography service and families can continue to capture life's memories.

PPE

Photographers will be required to wear a mask and carry essential sanitization items with them at all times.

Sanitization

Props, surfaces and equipment will be disinfected throughout the day.

Social Distancing

Employees will follow new posing and social distancing requirements to ensure a safe and comfortable picture day.

Safety Training

Lifetouch employees are required to complete enhanced safety and cleaning protocol training.

We're taking extra precautions this year because the safety of you, your families, and our employees are our #1 priority. We can't wait to get behind our cameras again soon and see your smiling faces! Rest assured that Lifetouch is leading the photography industry in providing comprehensive session safety protocols. These new processes follow the guidelines and recommendations written by the Center for Disease Control (CDC), U.S. Department of Health (HHS), and Occupational Safety and Health Administration (OSHA) standards related to COVID-19.

If you are a School or Church administrator with questions about our new disinfecting or social-distancing protocols, please don't hesitate to contact your local Lifetouch representative who can assist you.

Note: Photography safety protocols may change based on new or revised recommendations from local and national government agencies.
