2020 Product List: SOIL OPTIONS

BAGGED SOIL.....\$10.00 PER BAG

The very same soil we use in all of our products! The bag perfectly fills a 7-gallon pot and is fantastic for all of your container mixes! **This soil is available for preorder with our online ordering system.**

SOIL PICK UP OPTION.....\$5.00 PER POT USED

This year we will be offering a drive-up service to fill your pots. Bring your **emptied** pots to our greenhouses and we will gladly fill up your pots with the same soil we use in all of our own pots. There is no need to stop in the flower shop first, when you arrive you can follow the signs around the barn and the soil will be in the red, white, and blue steel shed. You can fill your pots before or after shopping if you are choosing to shop in-person. We will be using our **7-gallon black pots (pictured above)** and will **charge \$5 (plus tax) per black pot we use to fill your pots.** We will accept cash or check at the pot filling location in back, however if you wish to pay with a credit card you will need to stop in our flower shop to complete the purchase after your pots have been filled.
