

# **Healing with Orgone Energy: Exploring the Medicine of the Future**

with  
**Jorgos Kavouras, MD**

The Mindshift Institute is proud to present an evening with Dr. Jorgos Kavouras. This is a rare opportunity for anyone interested in healing—especially conventional and integrative medical practitioners, psychiatrists, and body-oriented therapists—to engage a professional whose experience is unique in the United States.

Nearly 60 years ago, Wilhelm Reich wrote in *The Cancer Biopathy*, “I have no doubt that the initial hesitant reaction to the novelty and simplicity of the apparatus will be overcome and that the officials will eventually authorize the distribution of orgone accumulators.

If this prediction comes true, it will be because of the clinical work of physicians like Dr. Jorgos Kavouras, who has been successfully treating patients in Europe for 25 years with orgone energy devices designed by Reich. Dr. Kavouras has also done extensive research work with the orgone accumulator and the Medical DOR-Buster. He is one of the most experienced physicians in the world today working with these powerful healing devices. Don't miss this chance to meet a true pioneer in the practice of orgone energy medicine.
