2006-08 Speaker and instructor for Tatum Surgical

2009-Present, The Z Group LLC, Speaker and instructor for Medical Billing of surgical and traumatic cases that are covered by Medical Insurance.

2013-Present, Certified instructor for the DNA Appliance

Career overview:

- Sold my general dental practice in 2002 and opened up Atlanta's Surgical Center for Dental Implants, where I continue to treat patients to this day.
- Have completed over 6000 surgeries related to implant dentistry ranging from the use of zygomatic implants and nerve relocation to restoring cleft palate cases.
- Completed over 700 hours of continuing education in implant dentistry.
- Have a thirst for knowledge and this has lead me to travels all over the world to be trained by the best in their respective fields of expertise.
- In the past 3 years, have focused my studies on TMD and sleep disorder breathing. This part of medicine is greatly misunderstood by our profession and has been fascinating to me to have gained knowledge to comprehensively treat these disorders.

Conclusion:

After 20 years in practice, I still look out and see no boundaries or limitations to my practice nor to knowledge that I can gain. At this point, when most dentists are thinking about retirement, I feel as if my career is just getting started.
