We have set up a new Utility Automated Notification System for our customers as a better way to serve you. Effective 10/14/16, we will begin the process of automated phone notifications for ***Disconnection of Service, Boil Water Notice and Lift Boil Water Notice***. Customers will be notified by phone using the cell phone listed on your account. Customers may choose to receive a text message instead of a phone call; however, you will need to inform the office for "text message preference" by calling 228-255-5813 otherwise you will automatically receive a phone call.
