

PROFILE & MISSION

The Organic Farmers of Michigan, (OFM) started in 1990 as an association of 12 organic certified growers, the group has been building ever since. In 1998, the Organic Farmers of Michigan L.L.C, was formed with over 70 organic certified growers represented as members of the company. The Organic Farmers of Michigan L.L.C. is proud to be a unique grower owned company.

Today, the Organic Farmers of Michigan markets over 10,000 acres of land for this grower owned company. OFM makes high quality organic certified beans and grains into the natural food and organic industry. OFM is able to service markets in Canada, Europe, Japan and domestically in the U.S.A.. Our products include some of the best quality food grade soybeans, edible beans, and grains produced in the U.S.A.

Our mission is to increase the viability of farming for all generations and to provide the local community, as well as abroad, with healthy and nutritional foods.
