

YLA Academic Curriculum Calendar

Preschool

Our curriculum consists of 90 lessons divided into 7 units. Each lesson consists of 1-3 activities with detailed teaching designed for children ages 2-5. The curriculum covers topics such as colors, shapes, counting and numbers, rhyming, sequencing, letter recognition, and the most common sound of each letter. The curriculum also teaches children correct pencil grip and beginning handwriting skills such as tracing straight and curved lines, while they practice fine motor skills.

Each unit has an assessment to review the principles learned in the unit; although there is no scoring or marking answers correct or incorrect. All principles will continue to be reviewed throughout each Unit to help aid in learning retention.

August

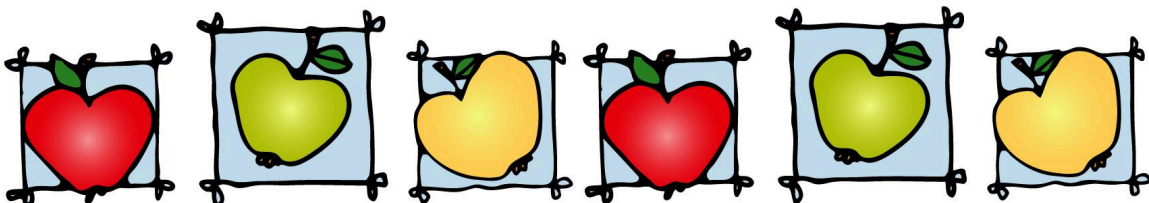

Unit 1	Letters	Colors + Shapes	Math	Focus
Lessons 1 - 14	A, B, C, D	Green, Red, Blue, Black, Brown, Yellow	Numbers: 1,2,3,4,5	Pencil Grip + Motor Skills

September

Unit 2	Letters	Colors + Shapes	Math	Focus

March - May

The YLA academic curriculum for March through May consists of 30 new lessons primarily focusing on mastering letter recognition and sounds. We will also begin working on reading two and three letter words while continuing to reinforce our learning of colors, motor skills, numbers, and rhyming.
