Topic Information sheet

Granite Meadows

Review and vote whether to adopt and submit the Granite Meadows recommendations (vegetation, roads and recreation, WUI) to Forest Service.

Supportive Objection

The PFC's supportive objection for Cold July was rejected. Key questions to discuss include:

- The PFC's supportive objections for Huckleberry and Cold July cited similar reasons for objecting. Why was the PFC's Cold July objection rejected while the Huckleberry objection was not?
- How did the Forest Service deal with the other supportive objection and, if the response was different, why?
- Has the Forest Service's view of supportive objections changed and, if so, why?

Sign update for the Payette National Forest

Last winter Sarah Lau offered to update the PFC on this topic. The presentation is available for review prior to the meeting (it will not be given at the meeting). There is no decision point: this is an informational topic for discussion.
