Juice’s Passion

Juice’s passions are what help her enjoy life. Her music is one of those passions.

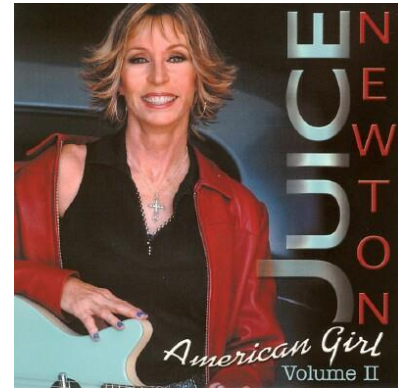

When an artist reaches a level of success as Juice has, the passion grows and thrives.

How does an artist measure this? The measurement comes from the heart of the artist and the hearts of the fans.

Juice has summed up her love of music and her success in a simple phrase. Juice said, “I am so fortunate.” We could not agree more Juice!

Dystonia Benefit Concert

October 5, 2006 Juice headlined a benefit concert for the Dystonia Research Foundation.

The concert was held at the beautiful Joan Kroc Performing Arts Center in San Diego, California.

Also performing was JNFC President Paul Fowler's good friend and local entertainer Carol Curtis.

Paul Fowler was diagnosed with Spasmodic Dysphonia (SD) two years ago. SD is a form of dystonia (neurological) that affects your vocal chords making it nearly impossible to speak and interfere with breathing patterns. Dystonia affects any muscle group of the body and can cause painful body postures and movements and loss of control. There is no cure for dystonia and it is not as well known as other neurological diseases.

Paul had asked both his friend Carol Curtis and Juice Newton if they wanted to help raise awareness about this disorder. Juice agreed to be the spokesperson for the cause. The concert was the seed of a brainstorm that Paul had. Knowing talent as he does, he requested that both Juice and Carol perform for the foundation.

The driving force behind the idea was to get this disorder known. Martha Murphy the San Diego County Dystonia Support Group President was key to the success of the benefit. Martha had her share of personal tragedy in 2006. She never once thought of herself, instead, her energy and concentration went towards making this concert a success.

“This was my very first charitable event”, Paul explains, “I couldn’t have asked for a better team in Martha and Carol. Otha Young was extremely helpful and was key to the success of the show. I cannot express my gratitude enough to Martha and Carol and Otha and of course Juice!”

People have often asked me, “What is Juice really like?” The best way in my opinion to describe her is just like the title of an album of hers...when you actually meet Juice, you ‘Take Heart.’” Paul said.

Everyone at the concert had a wonderful evening and they gave praise as they left the auditorium. Among the guests at the event were Paul’s physician Dr. Michael Keefe and his staff Amy & Theresa from SHARP Healthcare. This newsletter will be sent to various guests who ordinarily do not receive news about Juice Newton. What better way to say thank you for all the support than to read about it?

The ending of the evening was very special. Carol Curtis and Otha Young were presented with certificates of thanks and Martha Murphy was also given an award.

Juice was also given a certificate of thanks that read...

“The Dystonia Support Group of San Diego County wishes to thank

you for your talent that you have shared with everyone this evening 10/5/06. Most of all, thank you for sharing your heart.”

All the photos in the newsletter are from the Dystonia Benefit concert. Pictures of the benefit are at the JNFC website now! www.juicewtonfanclub.com. Guide your browser there today!

Paul's Reflection

This time of year it is always nice to sit back and reflect on who we hold dearest in our hearts. Most of us would agree that would be our family or life partner but for myself it goes deeper than that.

I am very privileged to know so many caring people. This was never so apparent than on October 5, 2006 when I hosted the dystonia benefit concert.

This year, I am extremely thankful to many people, not just those I am about to list. To my family Irv and Jeannie Fowler, my siblings, I am grateful for your love and support. To my friends and best friends, Carol Curtis, Vicki, Jack and Cheryl, Cathy I appreciate your devotion.

Luck or fate or carma, no matter how you word it, I am thankful to Otha Young for always seeming to never wear out of patience and for working with me so hard on the “business and techincal” side of the benefit. Thank you to Andre and Jay and Rick for playing for a cause and for being so enthusiastic.

Lastly, thank you Juice! It was indeed a pleasure to work with you directly on the show. I have been a fan for many years. However, what you did for me and other people with dystonia, means more to me than I can convey. Thank you Juice!
