Lascassas Baptist Preschool Monthly Devotion

Here's a word of encouragement for you!

Have you ever had friends who said that they would start coming to church once they got their life together? They say that they are too messed up to go to church and need to work on themselves before they feel like they could go to church. Maybe you've said that, too.

If you wait to go to church until you've worked on yourself, you'll never go. That's like saying I'm going to wait until I'm no longer sick to see a doctor. If you're sick, you need to see a doctor then, not when you get well. In the same way, if you've not got your life together and you've got sin in your life, that's the perfect time to get yourself into church.

God's law was given so that all people could see how sinful they were. But as people sinned more and more, God's wonderful grace became more abundant.
Romans 5:20

This Bible verse talks about how the law was given so that we could see how sinful we are. And as we realize how sinful we are, we realize that we can't get rid of sin on our own. We need God to help. God's grace is always more than enough to cover whatever sin you have in your life.

So, if you're going through something or if you have sin in your life, don't hide from God or feel like you need to get things together before coming to God. Rather, go to God. Get His help. Walk life with God and have Him help you fix the sin in your life.

Child Development Central

As we gear up for the trick-or-treating season, here are some tips from the American Academy of Pediatrics.

- Make sure that shoes fit well and that costumes are short enough to prevent tripping
- Consider adding reflective tape or striping to costumes and trick-or-treat bags for greater visibility.
- Because masks can limit or block eyesight, consider non-toxic makeup and decorative hats as safer alternatives.
- If a sword, cane, or stick is a part of your child's costume, make sure it is not sharp or long.
- Consider using a flashlight or glow stick instead of a candle to light your pumpkin.
- A parent or responsible adult should always accompany young children on their neighborhood rounds.
- Obtain flashlights with fresh batteries for all children and their escorts.
- Only go to homes with a porch light on and never enter a home or car for a treat.
- Stay in a group and communicate where they will be going.
- Remain on well-lit streets and always use the sidewalk.
- If no sidewalk is available, walk at the far edge of the roadway facing traffic.
- Never cut across yards or use alleys and don't assume the right of way.
- A good meal prior to parties and trick-or-treating will discourage youngsters from filling up on Halloween treats.
- Wait until children are home to sort and check treats, throw away any spoiled, unwrapped or suspicious items.
- Try to ration treats for the days and weeks following Halloween.
