MENTAL HEALTH REHABILITATION HELPS CHILDREN AND ADULTS WITH MOST CRITICAL NEEDS

Founded in 2012, DIR, LLC (MHR) offers intensive community-based outpatient services to at-risk children, adolescent, and adults, who experience complex emotional and behavioral disorders that disrupt their lives. Bachelor's and Master's level and licensed clinicians provide counseling and skill-building services two to three hours per week, in both the home, school, or confidential community locations that are tailored to meeting the diverse needs of our clients and families.

Over the past year, our clinicians have provided comprehensive services to over 246 families residing in Orleans and Jefferson parishes. We are active in over 45 schools to support the academic improvement and success of the children we serve.

In a measure of long-term cases closed over this past year, 4.7% have shown improvement in symptom reduction and overall functioning.

As we prepare for the upcoming Medicaid transition, MHR is actively streamlining processes and revisiting documentation and training to meet the requirements set forth in ACT 582, including the revisions recently approved by CMS.
