## Spectra Builders Marks 20th Year Serving The Raleigh Market

**S**pectra Builders is excited to be celebrating its 20th year in business. A commercial general contractor, the firm performs ground-up construction, design/build, and specializes in interior fitups for both occupied and unoccupied spaces.

Spectra Builders' client list is lengthy and includes major health care organizations, foundations, state and local governments, universities and hundreds of companies large and small, public and private.

During the ten years prior to Spectra's founding, Tony Smith worked in commercial construction for other contractors. When Spectra Builders was created in 1993 by Tony and his wife, Kathy, the main focus was on residential building. In 1999, Spectra incorporated and broadened its scope of work into the commercial arena, where Tony's prior experience proved invaluable.

In 2001, Spectra relocated its main office from Louisburg to Zebulon, where it remains today. The company shifted exclusively into commercial construction in 2006, expanding its client list and making new connections. During this time, the firm became licensed in the state of South Carolina, and in 2010, achieved certification as a North Carolina HUB Woman-Owned Business.

Today, Tony and Kathy remain extremely involved in the company's day-to-day operations and look forward to leading Spectra into the next 20 years, which may even see a new generation of Smith family members involved.

Tony and Kathy would like to thank all their employees, past and present, and all their clients, for their continued support over the past two decades. They could not have accomplished what they have without your help and are committed to maintaining these relationships and gaining new ones in the years ahead.

# Our New Year's Message...

The new year is traditionally a time of reflection, as well as celebration. We hope that amidst the busyness of the season, you'll stop to take a few moments to appreciate your own blessings and offer some help to those less fortunate.

As a business, we, too, have a lot for which to be grateful...our dedicated, hardworking employees, our outstanding building team partners, our supportive corporate friends and, of course, our loyal clients, without whom we would not exist.

On behalf of the entire Spectra Builders staff, we hope you had a safe and happy Christmas season and wish you a healthy and prosperous 2014. May the year to come fulfill all your dreams.

## Woody Magoon Retires

Woody Magoon came to work for Spectra Builders in July 1999 via a referral from a business associate. That referral turned out to be an outstanding addition to the Spectra team. Woody had many years of residential experience, and as Spectra transitioned into the commercial construction area, so did Woody. With his building expertise, he caught on rather quickly and soon became Spectra's lead superintendent.

This past spring, after 14 years here, Woody decided it was time for him to lay down his hammer. He and his wife, Sheryl, sold their house in Zebulon, packed up and moved back to Vermont, close to family and friends. These days Woody is enjoying his retirement by hunting deer and looks forward to ice fishing during the winter months.

He is greatly missed by his colleagues and friends in North Carolina. Spectra was very blessed to have had Woody Magoon as a part of its team for so many years and we wish him the best in his retirement.

*Woody Magoon*
