... January Happenings ...

- ★ We are excited that we are fully transitioned to our new **Kangarootime** Child Data Management System. We appreciate your patience and understanding as we made the move! A few reminders ...
 - be sure to add ANY and EVERY one that you would like to pick up your child as a 'Guardian'.
 - Update all information for your child and family including phone numbers, address, emergency contacts, etc
 - Add any allergies to your child's profile under "medical information"
- ★ We are currently accepting **DONATIONS** of the following items for upcoming projects: empty 2-liter bottles, cereal/coke cardboard boxes, newspaper, buttons, crayons.

December Recap

We have had a very exciting month here at LEAP celebrating the holidays with the kids before our break!!! Our focus for December was building on our fundamentals and enhancing our speaking/writing skills by introducing more advanced ways of hands on learning. Students were also exposed to different types of learning styles in order to understand that everyone learns differently and at their own pace. This allowed the kids to acknowledge what works best for them while learning and adapt to the different types of learning environments. While understanding that everyone may learn different but some teachers also teach differently. These lessons help to strengthen their core skills and teach them how to strengthen those skills on their own.

Future Career:

(A) Nurse (P) Swat Medic (U) Police Officer (B) Race Car Driver

Staff Spotlight

Ms. Karsyn is another one of our STEM teachers. She loves challenging the students and seeing all of the amazing things they come up with. Her words of encouragement ***“Don’t let your mistakes define what you are capable of doing!”***
