Please include your primary care physician's phone number as well as their address, and any other physicians that you wish to receive a report of your office visit with us. Please remember to sign and date the bottom of the blue form.

**We have enclosed a copy of our privacy policy. Please read the policy. Sign both sheets after reading and understanding the privacy policy.**

Be sure to bring all insurance cards as well as a photo ID so that we can photocopy them.

For your first office visit with us you will likely be dilated, so if you need to have someone with you, please make those arrangements. The average length of your visit will be about 2 hours.

We look forward to meeting you.
