**Construction Estimating Software:**

## The Sub-bid Organizer™

... For Builders, Construction Managers, and General Contractors

### Description:

A **273-sheet** Excel Workbook® Template enabling **CM's, GC's,** and Builders to organize all sub-contractor/vender bids for any project. All summary sheets calculate **AUTOMATICALLY.**

- **256 sheets** dedicated to sub-bid data entry.
  - sixteen sub-trade sheets per CSI Division
  - place for up to twelve bids per sub-trade sheet
  - adjustable max-variant auto-isolate "too low" bids
- **16 sheets** auto-calculate each CSI Division summary.
  - Displays up to sixteen sub-trades per CSI Division
  - Displays both low bids & valid bids for each trade
  - Displays maximum variant set on sub-trade sheets
  - Auto-calculates actual variants for "too low" bids
  - Auto-locates unsorted/errant sub-bid entries
  - Adjustable contingency, overhead, and profit
- **1 sheet** fully-automatic project summary:
  - Displays each CSI Division low sum & valid sum
  - Auto-calculates actual variants for each CSI Div.
  - Auto-locates unsorted/errant entries per division
  - Auto-calculates OH&P set on CSI Div. Summaries

**Essentially**, the **Sub-bid Organizer™** enables efficient data entry of subcontractor and vender bids, plus:

- Automatically isolates "too low" bids
- Auto-generates sorting-error messages
- Automatically calculates 16 CSI Division Summaries
- Automatically calculates a 1-Page Project Summary
