

Commercial Electric Hot Water Boilers

Standard Features

- ASME National Board Registered Pressure Vessel
- Heavy Duty Steel Boiler Vessel Housing
- Full Sized Structural Steel Base
- 3" Fiberglass Insulation
- Flanged Inlet and Outlet Connection (above 3")
- ASME Pressure Relief Valve
- Pressure Gauge with Cock
- Full Port Drain Valve
- Low Water Cut-Off with Manual Reset
- Manual Limit Toggle Switches (one per step)
- Adjustable High Limit with Automatic Reset
- Adjustable High Limit with Manual Reset
- Incoloy Sheathed Elements
- Internal Branch Circuit Fusing
- Magnetic Contactors
- Main Supply Circuit Lugs
- 120 Volt Fused Control Transformer
- On/Off Switch with Pilot Light
- Integral Electric Control Panel with Key Locked Door(s)
- Proportional Progressive Sequencing Step Control
- Status Pilot Light for each Step
- Digital Electronic Readout
- Listed by the Underwriters Laboratories
- 3 Year Limited Tank Warranty / 1 Year Parts Warranty
(See warranty for details)

Optional Equipment

- Alarm Buzzer w/silencing switch
- Automatic Breaker
- Flow Switch
- Non Fused Disconnect
- Fused Disconnect
- Ground Fault Detection System
- Low Temperature Switch
- Main Power Disconnect
- Manual Limit Toggle Switches (1 per step)
- Kilowatt/Hour Meter
- Amp Meter
- Volt Meter
- High Pressure limit switch
- Control Panel door solenoid interlock
- Low water cutoff-float type
- BMS alarm interface
- BMS remote set point control
- BMS remote step control (remote enable)
- BMS 120V interface to limit boiler power demand
- BMS 24V interface to limit boiler power demand
- Time clock
- 304 stainless steel vessel & non ferrous trim
- 3" connections
- 4" connectoins
- Bacnet Communications - IP or MSTP
- Modbus Communications - TCP/IP or RTU

Commercial Electric Hot Water Boiler Dimensions & Specifications

Note 1: Element removal clearance (R") is equal to 2 times the element kW.

Note 2: Optional equipment may change overall boiler dimensions. Please consult factory for dimensional information.
