

LIMITED WARRANTY

For the warranty period indicated below, Blue Can, a Nevada Company (“Manufacturer”), warrants to the purchaser that the Manufacturer will, subject to the Terms, Conditions, and Limitations set forth below, provide replacement water sufficient to replace existing unopened product of the same batch.

TERMS, CONDITONS, AND LIMITATIONS

What This Warranty Covers This warranty covers drinkability as established by FDA standards and determined by an FDA certified lab. Additionally this warranty covers manufacturer’s defects in materials and workmanship in the packaging of Blue Can Water, specifically for the aluminum container.

What This Warranty Does Not Cover This warranty does not cover any problems which result from improper transportation or storage based on manufacturer’s recommendations specifically 1) if the product is stored below 34 degrees Fahrenheit (the formation of ice could rupture the container) or above 150 degrees Fahrenheit. 2) if the product in its original package is not stored in a dry location, the cardboard could deteriorate and expose the aluminum cans to oxidation, thereby compromising the cardboard packaging and drinkability of the container.

How Long The Warranty Lasts The coverage of this warranty is fifty years from the date of manufacture.

How To Get Warranty Service In the event the water, in its original container, is determined undrinkable by an FDA Certified laboratory, Blue Can will replace the entire batch of unopened water in the possession of the customer; upon request, Blue Can will replace all water, with drinkable water of equal value.

For Warranty service please contact Blue Can directly in writing at the following address:
