

## INJ-S100:

### INJ-S100:

INJUNGTECH and LS inverters(LG) have joint forces and have delivered an alternative answer to replace the motor mounted VFD's and introduced the all new INJ-S100 series. The INJ-S100 enables users to have all of the functionalities of a VFD within a PANEL. No separate PID controllers are needed as all of the INJ-S100 can be controlled individual on each unit.

### Specification

Model : INJ-S100  
Power : 2.2 ~ 75 Kw  
Input Power : 1PH/3PH 220/380V  
Output Power : 3PH 380 V  
IP Class : IP  
Main Frequency : 50/60 Hz  
External Comm. : RS-485/ Phone application (Android/IOS)

### Features

- Constant discharge pressure control system (PID control)
- LED Screen (Indication for Run/Errors/Stop)
- Max. up to 6 pumps linkage
- Panel mounted
- Language : KOR/EN/CH
