Dakota COUNTY

WHEP Wetland Health Evaluation Program

Come explore with us.

Sign up today.

The Wetland Health Evaluation Program teaches community volunteers to become wetland monitors in their neighborhood.

Volunteers learn scientific techniques developed specifically for monitoring wetlands in this region. By participating in WHEP, volunteers become local experts in wetland health, provide credible scientific data to decision-makers in their community, and teach others to protect valuable wetland resources.

To learn more or to become a WHEP volunteer scan the QR code, visit www.mnwhep.org or call 952-891-7117.
