

RMT Corporation Fixtures....

Project: Airplane Propeller Mold
Notes: 3D milling

Project: Robotic Weld Fixture
Notes: Fixture holds previously tack welded part for finish weld process via hydraulic swing clamps and work supports. Fixture utilizes spatter resistant materials, cable guards and sheet metal covers.

Project: Manual Sensor Boss Weld Station
Notes: Station designed to adjust to twelve different exhaust pipe configurations. Table is height adjustable via hydraulic lift cylinders. Locating details utilize weld spatter resistant materials and coatings.
