

ENVIRONMENTAL POLICY

Our policy is to operate our business to high professional standards. We seek to organise all our activities in ways which reflect good environmental and management practice. We aim to provide value for money for our customers and the assurance of an integrated approach to the protection of the environment and enhancement of the quality of life.

We wish to develop close and responsive relationships with our customers, environmental regulators, representatives of the local community and members of the public who share our desire for a better environment for present and future generations.

Signed.....

Mark J Ibbotson
Managing Director
