

# SCDMH Fee Reduction Information

---

We offer a fee reduction to clients who have no insurance and are financially responsible for their entire bill. Unfortunately, we cannot provide further reductions to clients who have insurance to assist with co-pays or deductibles.

To apply for a fee reduction, you will need to provide proof of income for your household and often this will require a combination of documents. Acceptable proof of income includes the following:

- Current paycheck stub(s)
- Annual tax W-2 form
- Prior year income tax return
- Public assistance eligibility documentation (food stamps, etc.)
- Alimony/child support documentation
- Letter of award of retirement income, social security, unemployment compensation, insurance annuity, etc.
- Signed statement that the client is the beneficiary of a trust or other source of readily available income or payment for health care expenses
