VantageSouth Bank Renovates And Expands

VantageSouth Bank merged with Crescent State Bank in December 2012, then with East Carolina Bank this April. As a result of their growth, the bank needed to expand their current corporate headquarters in Raleigh, N.C., and Spectra Builders recently completed the tenant-occupied renovation and expansion of those corporate offices.

The scope of work included the renovation of 2,878 square feet, along with 3,288 square feet of new space.

Performed in three phases, the addition was completed first, with the office staff then relocated into that space while the existing area was renovated.

The addition houses new offices with sidelight windows, break room and a conference room. In the existing space, new walls were added for offices and storage.

VantageSouth Bank, with 46 branches and ATMs, serves North Carolina from the Central Piedmont region to the coast. VantageSouth's mission is to be a community bank that provides the services of a larger bank while offering the personalized service of a local bank.
