

# TRoubLED WATERS

*Smooth sailing, ocean waters blue serene  
Cradled like an unborn child  
Floating on the love you give to me  
Every time we touch the magic  
Of the waters flow so free  
I thought we could sail the ocean for all eternity*

## CHORUS

*But I see trouble up ahead  
The waves are crashing all around my head  
I am drowning helplessly  
Only your sweet love can rescue me  
Troubled waters, troubled waters, troubled waters, troubled waters*

*Peaceful waters, echoes of the love you give to me  
High above the moon and stars  
Crystallize the magic of the sea  
When we kiss our passions rise  
Floating further out to sea  
I thought we could sail the ocean for all eternity*

## CHORUS

*The wind is high the water rough the ocean covers me I'm reaching out and you're  
not there, no, no, no  
Though fate has turned a hand my love and you are lost at sea  
The magic of the tide will bring you back to me*

## CHORUS

*Come to me baby  
I need you by my side  
I know we'll be together  
I know everything will be alright  
Come for me baby  
Somebody rescue me  
I know you'll be back baby  
By my side eventually*

*Come to me baby, Come to me baby???*  
*Troubled waters, troubled waters*
