

FLEET MAINTENANCE IMPROVEMENTS

Following a fleet operations review, **TCI** advises as to ways to reduce the maintenance budget. TCI can determine:

- »» If maintenance costs are appropriate given fleet size, age & operating environment
- »» Proper staffing of mechanics/technicians necessary for each shift
- »» How to best utilize the talents of the maintenance personnel
- »» The necessary technical training required
- »» If preventative maintenance program is effective & areas to improve
- »» How to minimize parts and tire inventory
- »» How to maximize warranty recovery

FLEET MAINTENANCE IMPROVEMENTS

TCI evaluates every element of your maintenance facilities that may improve operating efficiency and achieve cost savings, including these areas:

- »» Space utilization
- »» Shop equipment and fixtures
- »» Facility design
- »» Parts inventory levels
- »» Technology/Information Systems
- »» Scheduling
- »» Staffing/Administration
