

## Juice Newton Fall Newsletter 2012

Hello Everyone!! I hope that you enjoyed your summer!! This summer has been incredibly hot but not as hot as Juice's music! This particular year has been full of great performances and fan feedback.

The enjoyment of why Juice still tours and records music comes from her heart and that in turn is felt by fans and concert goers all over the world.

I wanted to start out this newsletter by sharing something with you. Recently, I was listening to my ipod while I was at the gym. Somebody saw the display picture of Juice and they asked me what I liked the most about her.

I didn't have to even think about it. I replied, "Her heart." Those two words describe Juice's music, personality and career.

Many members have written in asking the usual questions about Juice and some have written in asking deep questions. Some of the deep questions were that of "What was the reason Juice recorded "Angel of The Morning?" "When Juice chooses songs to record, what is she looking for?"

The reward Juice receives from her fans is a very special gift. I can tell you that she does not take any fan for granted and she will answer any question if she can at her concerts. So, should you attend a show, wait until the end, then go to the location where she is selling photos and CD's and talk to her.

### Fan Club Update

My goal is make sure that you the members of the JNFC are kept up to date on what is happening with Juice. Now, with that being said, I am asking for your "J" reports. I will feature these in future newsletters.

What are these articles be about? They can be a concert review or a story about your encounter with Juice or perhaps a story you found on the internet. Should you find a story on the internet, please send the link to myself and I will be sure to give the credit to the writer of the article and the member who sent it in.

The stories or articles do not have to be a current but they do have to be about Juice or her career.

### Benefit Update
