

Delta Agricultural Credit Association

Quarterly Report
March 31, 2020

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following commentary reviews the consolidated financial condition and consolidated results of operations of Delta Agricultural Credit Association and its subsidiaries, Delta Agricultural Credit Association, FLCA and Delta Agricultural Credit Association, PCA. This discussion should be read in conjunction with both the unaudited consolidated financial information and related notes included in this Quarterly Report as well as Management's Discussion and Analysis included in our Annual Report for the year ended December 31, 2019 (2019 Annual Report).

Due to the nature of our financial relationship with AgriBank, FCB (AgriBank), the financial condition and results of operations of AgriBank materially impact our members' investment. To request free copies of AgriBank financial reports or additional copies of our report, contact us at:

FORWARD-LOOKING INFORMATION

Any forward-looking statements in this Quarterly Report are based on current expectations and are subject to uncertainty and changes in circumstances. Actual results may differ materially from expectations due to a number of risks and uncertainties. More information about these risks and uncertainties is contained in our 2019 Annual Report. We undertake no duty to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

AGRICULTURAL AND ECONOMIC CONDITIONS

Our territory is located in rural southeast Arkansas. Crop, livestock, poultry, and timber production are the primary agricultural enterprises that influence our Farm Credit Association's portfolio. Most area commodities are being negatively affected by the current U.S. tariff and coronavirus (COVID-19) threats. The U.S. government has promised support to cushion the negative impacts.

The current Farm Bill will provide some cushion to the decline of local field crop commodity prices. Additional support from the U.S. government has been promised and legislation for funding has been approved. This support will improve the economics for most of the commodities in our area. The crop land rents have declined slightly and are basically tied to the equivalence of the predominant share crop rent values. Although there is economic pressure in crop production, crop rents are still attractive to land owners and investors who represent the majority of the farmland buyers.

Poultry production continues to show profitable margins, but new grower contracts and new poultry facility construction have declined significantly from the peak six years ago. Beef cattle prices are adequate compared to the cost of production in the last quarter and provide for profitability for the average producer. Due to the loss of demand, pine timber pricing has returned to its weak position after temporarily increasing early in 2019. The major stress in our territory is in field crop enterprises, which has been mitigated significantly by the Market Facilitation Program payments funded from the tariffs. Only a small portion of our portfolio has repayment from consumer income, which has seen the greatest impact from COVID-19. Our earnings have been negatively impacted by a cool wet spring delaying field progress and loan disbursements. This situation typically recovers quickly once field work begins.

The overall field crops, livestock, poultry, and timber economies are sustainable despite the tariff and COVID-19 threats with the government support promised. Our Farm Credit Association is experiencing an acceptable economic environment at this time.

LOAN PORTFOLIO

Loan Portfolio

Total loans were \$39.9 million at March 31, 2020, a decrease of \$2.6 million from December 31, 2019. The decrease was primarily due to seasonal repayments of production and intermediate-term loans and annual repayments on our real estate mortgage loans.

Portfolio Credit Quality

The credit quality of our portfolio remained stable from December 31, 2019. Adversely classified loans decreased to 5.3% of the portfolio at March 31, 2020, from 5.5% of the portfolio at December 31, 2019. Adversely classified loans are loans we have identified as showing some credit weakness outside our credit standards. We have considered portfolio credit quality in assessing the reasonableness of our allowance for loan losses.

While overall credit quality remains strong, the impact of the global pandemic disruption to many agriculture industries, and with commodity prices expected to remain at relatively low levels, grower margins will likely be negatively impacted in 2020. These conditions may result in increases to adverse credit quality and related provision for credit losses.

In certain circumstances, government agency guarantee programs are used to reduce the risk of loss. At March 31, 2020, \$20.3 million of our loans were, to some level, guaranteed under these government programs.

Risk Assets

Components of Risk Assets

(dollars in thousands)	March 31,	December 31,
As of:	2020	2019
Loans:		
Nonaccrual	\$ 471	\$ --
Accruing restructured	325	320
Accruing loans 90 days or more past due	--	--
Total risk loans	796	320
Other property owned	--	--
Total risk assets	\$ 796	\$ 320
Total risk loans as a percentage of total loans	2.0%	0.7%
Nonaccrual loans as a percentage of total loans	1.2%	--
Current nonaccrual loans as a percentage of total nonaccrual loans	--	--
Total delinquencies as a percentage of total loans	1.4%	--

Note: Accruing loans include accrued interest receivable.

Our risk assets have increased from December 31, 2019, but have remained at acceptable levels. Despite the increase in risk assets, total risk loans as a percentage of total loans were well within our established risk management guidelines.

The increase in nonaccrual loans was due to one loan in the real estate mortgage loan category transferring to nonaccrual during the first quarter of 2020. Nonaccrual loans remained at an acceptable level at March 31, 2020.

The increase in total delinquencies as a percentage of total loans was primarily due to one loan in the real estate mortgage loan category transferring to nonaccrual during the first quarter of 2020.

Allowance for Loan Losses

The allowance for loan losses is an estimate of losses on loans inherent in our portfolio as of the financial statement date. We determine the appropriate level of allowance for loan losses based on periodic evaluation of factors such as loan loss history, estimated probability of default, estimated loss severity, portfolio quality, and current economic and environmental conditions.

Allowance Coverage Ratios

As of:	March 31,	December 31,
	2020	2019
Allowance as a percentage of:		
Loans	0.3%	0.2%
Nonaccrual loans	22.1%	--
Total risk loans	13.1%	32.5%

In our opinion, the allowance for loan losses was reasonable in relation to the risk in our loan portfolio at March 31, 2020.

RESULTS OF OPERATIONS

Profitability Information

(dollars in thousands)

For the three months ended March 31,	2020	2019
Net income	\$ 17	\$ 92
Return on average assets	0.2%	0.8%
Return on average members' equity	0.7%	3.8%

Changes presented in the profitability information chart relate directly to:

- Changes in income discussed in this section
- Changes in assets discussed in the Loan Portfolio section
- Changes in capital discussed in the Funding, Liquidity, and Capital section

Changes in Significant Components of Net Income

(in thousands)			(Decrease)
For the three months ended March 31,	2020	2019	increase in net income
Net interest income	\$ 333	\$ 378	\$ (45)
Non-interest income	52	44	8
Non-interest expense	368	328	(40)
Provision for income taxes	--	2	2
Net income	\$ 17	\$ 92	\$ (75)

Net Interest Income

Changes in Net Interest Income

(in thousands)

For the three months ended March 31,	2020 vs 2019
Changes in volume	\$ (51)
Changes in interest rates	6
Net change	\$ (45)

Non-Interest Income

The change in non-interest income was primarily due to increases in patronage income. We may receive patronage from AgriBank. Patronage distributions from AgriBank are declared solely at the discretion of the institution's Board of Directors. The increase in our wholesale patronage income from \$33 thousand at March 31, 2019, to \$43 thousand at March 31, 2020, was primarily due to a higher patronage rate for the first three months of 2020 compared to the same period of 2019. Wholesale patronage was paid in cash for the first three months of 2020 and 2019.

Non-Interest Expense

The change in non-interest expense was primarily related to increases in purchased services due to higher consulting fees in the first three months of 2020 compared to the same period of 2019. In addition, salaries and employee benefits expense increased primarily due to annual merit increases.

FUNDING, LIQUIDITY, AND CAPITAL

We borrow from AgriBank, under a note payable, in the form of a line of credit. Our note payable matured on March 31, 2020, and was renewed for \$60.0 million with a maturity date of May 31, 2021. The note payable will be renegotiated no later than the maturity date. The repricing attributes of our line of credit generally correspond to the repricing attributes of our loan portfolio, which significantly reduces our market interest rate risk. Due to the cooperative structure of the Farm Credit System and as we are a stockholder of AgriBank, we expect this borrowing relationship to continue into the foreseeable future. Our other source of lendable funds is from equity.

The components of cost of funds associated with our note payable include:

- A marginal cost of debt component
- A spread component, which includes cost of servicing, cost of liquidity, and bank profit
- A risk premium component, if applicable

Effective April 1, 2020, we were subject to an 8 basis point risk premium. The risk premium was triggered by a decline in our risk score. We are able to earn back any risk premium charged if our quarter end risk score rises about 65 points within four quarters of the risk score falling below 65 points. We were not subject to a risk premium at December 31, 2019.

We continue to maintain our primary source of liquidity through our AgriBank line of credit. During recent market volatility certain adjustments to cost of our funding of longer term loans was impacted.

Total members' equity increased \$16 thousand from December 31, 2019, primarily due to net income for the period.

The Farm Credit Administration (FCA) Regulations require us to maintain minimums for our common equity tier 1, tier 1 capital, total capital, and permanent capital risk-based capital ratios. In addition, the FCA requires us to maintain minimums for our non-risk-adjusted ratios of tier 1 leverage and unallocated retained earnings and equivalents leverage. Refer to Note 6 in our 2019 Annual Report for a more complete description of these ratios.

Regulatory Capital Requirements and Ratios

As of:	March 31, 2020	December 31, 2019	Regulatory Minimums	Capital Conservation Buffer	Total
Risk-adjusted:					
Common equity tier 1 ratio	27.5%	24.8%	4.5%	2.5%	7.0%
Tier 1 capital ratio	27.5%	24.8%	6.0%	2.5%	8.5%
Total capital ratio	27.8%	25.1%	8.0%	2.5%	10.5%
Permanent capital ratio	28.3%	25.2%	7.0%	N/A	7.0%
Non-risk-adjusted:					
Tier 1 leverage ratio	20.9%	18.0%	4.0%	1.0%	5.0%
Unallocated retained earnings and equivalents leverage ratio	20.6%	17.7%	1.5%	N/A	1.5%

Capital ratios are directly impacted by the changes in capital, as more fully explained in this section, the changes in assets, as discussed in the Loan Portfolio section, and off-balance sheet commitments.

OTHER MATTERS

Relationships with Other Farm Credit Institutions

SunStream Business Services: SunStream Business Services (SunStream) was previously a division of AgriBank. Effective April 1, 2020, SunStream is a System service corporation and we will be a partial owner and continue to purchase services from SunStream. We purchase various services from SunStream, which include financial and retail systems, tax reporting services, technology services, and insurance services. As of April 1, 2020, our investment in SunStream was \$15 thousand. The entire investment was called on April 1, 2020, at which time \$8 thousand was paid in cash and the remainder is due in January 2021.

COVID-19

The spread of COVID-19 has created a global public-health crisis that has stifled the world-wide economy, decreased liquidity in fixed income and equity markets, significantly increased unemployment levels and disrupted global supply and demand chains. Unprecedented actions are being taken by governments, businesses and individuals to slow or contain the spread of COVID-19, including quarantines, stay-at-home orders, school closings and travel bans that have substantially restricted daily activities and forced many businesses to curtail or cease operations. The impact of COVID-19 on companies is evolving rapidly and its future effects are uncertain.

The extent to which the COVID-19 pandemic impacts the Association will depend on future developments that are highly uncertain and cannot be predicted such as the duration, extent and severity of the pandemic, the continued response by the U.S. government and how quickly "normal" daily activities resume.

Despite volatility and uncertainty in the market, we have weathered the significant initial challenges presented by current operating environment and operations of our Association are fully functioning. Our Association followed state directives to limit person-to-person contact by closing our lobby and allowing in person visits by appointment only.

This outbreak puts the economy and agriculture sector in uncharted territory. The overall impact of COVID-19 on U.S. agriculture will depend on the severity and duration of the outbreak, including a potential reoccurrence later in the year. Overall, agriculture will adjust, providing an "essential service" to the U.S. and global consumer.

Governance

The Board of Directors (the Board) of the Association has been pursuing possible strategic initiatives including possible transfer to another Farm Credit District and ultimately potentially affiliating with another association. The Board has been in discussions with AgriBank about these potential changes. The Board has retained counsel to advise the Association on these issues and to represent the Association in its interactions with AgriBank, the FCA, and potential affiliation partners. On April 24, 2020, the Board submitted a petition to AgriBank for consent to the transfer of Delta Agricultural Credit Association to the Texas Farm Credit Bank District.

CERTIFICATION

The undersigned have reviewed the March 31, 2020, Quarterly Report of Delta Agricultural Credit Association, which has been prepared under the oversight of the Audit Committee and in accordance with all applicable statutory or regulatory requirements. The information contained herein is true, accurate, and complete to the best of our knowledge and belief.

Mike Norris
Chairperson of the Board

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1: ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

The Consolidated Financial Statements contain all adjustments necessary for a fair presentation of the interim Consolidated Statements of Condition and Consolidated Statements of Income. Our accounting and reporting policies conform to accounting principles generally accepted in the United States of America (GAAP) and the prevailing practices within the financial services industry. This interim Quarterly Report is prepared based upon statutory and regulatory requirements and in accordance with GAAP. However, certain disclosures required by GAAP are omitted. The results of the three months ended March 31, 2020, are not necessarily indicative of the results to be expected for the year ending December 31, 2020. The interim financial statements and the related notes in this Quarterly Report should be read in conjunction with the Consolidated Financial Statements and related notes included in our Annual Report for the year ended December 31, 2019 (2019 Annual Report).

The Consolidated Financial Statements present the consolidated financial results of Delta Agricultural Credit Association and its subsidiaries Delta Agricultural Credit Association, FLCA and Delta Agricultural Credit Association, PCA. All material intercompany transactions and balances have been eliminated in consolidation.

Recently Issued or Adopted Accounting Pronouncements

We have assessed the potential impact of accounting standards that have been issued by the Financial Accounting Standards Board (FASB) and have determined the following standards to be applicable to our business. While we are a nonpublic entity, our financial results are closely related to the performance of the combined Farm Credit System. Therefore, we typically adopt accounting pronouncements in alignment with other System institutions.

Standard and effective date	Description	Adoption status and financial statement impact
In June 2016, the FASB issued Accounting Standards Update (ASU) 2016-13 "Financial Instruments - Credit Losses." The guidance was originally effective for non-U.S. Securities Exchange Commission filers for our first quarter of 2021. In November 2019, the FASB issued ASU 2019-10 which amends the mandatory effective date for this guidance for certain institutions. We have determined we qualify for the deferral of the mandatory effective date. As a result of the change, the standard is effective for our first quarter of 2023 and early adoption is permitted.	The guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. Credit losses relating to available-for-sale securities would also be recorded through an allowance for credit losses.	We are evaluating the deferral and have not yet determined if we will early adopt the standard. We have reviewed the accounting standard and significant matters yet to be addressed include system selection, system development and testing, drafting disclosures, drafting of accounting policies and designing processes and controls. We are currently unable to estimate the impact on our financial statements.

NOTE 2: LOANS AND ALLOWANCE FOR LOAN LOSSES

Loans by Type

(dollars in thousands)

As of:	March 31, 2020		December 31, 2019	
	Amount	%	Amount	%
Real estate mortgage	\$ 27,637	69.3%	\$ 28,678	67.5%
Production and intermediate-term	12,254	30.7%	13,776	32.4%
Agribusiness	--	--	23	0.1%
Total	\$ 39,891	100.0%	\$ 42,477	100.0%

Delinquency

Aging Analysis of Loans

(in thousands)

As of March 31, 2020	30-89 Days Past Due		90 Days or More Past Due		Total	
	Past Due	Total	Past Due	Total	Not Past Due or Less than 30 Days Past Due	Total
Real estate mortgage	\$ 102	\$ 573	\$ 471	\$ 573	\$ 27,527	\$ 28,100
Production and intermediate-term	--	--	--	--	12,449	12,449
Agribusiness	--	--	--	--	--	--
Total	\$ 102	\$ 573	\$ 471	\$ 573	\$ 39,976	\$ 40,549

As of December 31, 2019	30-89 Days Past Due	90 Days or More Past Due	Total Past Due	Not Past Due or Less than 30 Days Past Due	Total
Real estate mortgage	\$ --	\$ --	\$ --	\$ 29,215	\$ 29,215
Production and intermediate-term	--	--	--	14,019	14,019
Agribusiness	--	--	--	24	24
Total	\$ --	\$ --	\$ --	\$ 43,258	\$ 43,258

Note: Accruing loans include accrued interest receivable.

There were no loans 90 days or more past due and still accruing interest at March 31, 2020, or December 31, 2019.

Risk Loans

Risk loans are loans for which it is probable that all principal and interest will not be collected according to the contractual terms.

Risk Loan Information

(in thousands)	March 31, 2020	December 31, 2019
As of:		
Volume with specific allowance	\$ --	\$ --
Volume without specific allowance	796	320
Total risk loans	\$ 796	\$ 320
Total specific allowance	\$ --	\$ --
For the three months ended March 31,	2020	2019
Income on accrual risk loans	\$ 5	\$ 5
Income on nonaccrual loans	--	--
Total income on risk loans	\$ 5	\$ 5
Average risk loans	\$ 472	\$ 355

Note: Accruing loans include accrued interest receivable.

We had no commitments to lend additional money to borrowers whose loans were classified as risk loans at March 31, 2020.

Troubled Debt Restructurings (TDRs)

There were no TDRs that occurred during the three months ended March 31, 2020, or 2019. In addition, there were no TDRs that defaulted during the three months ended March 31, 2020, or 2019 in which the modification was within twelve months of the respective reporting period.

TDRs outstanding in the production and intermediate-term loan category totaled \$325 thousand and \$320 thousand, all of which were in accrual status at March 31, 2020, and December 31, 2019, respectively.

There were no commitments to lend to borrowers whose loans have been modified in a TDR at March 31, 2020.

Allowance for Loan Losses

The allowance for loan losses was \$104 thousand at March 31, 2020, and 2019. There was no provision, recoveries, or charge-offs for the three months ended March 31, 2020, or 2019.

NOTE 3: CONTINGENCIES AND COMMITMENTS

In the normal course of business, we have various contingent liabilities and commitments outstanding, primarily commitments to extend credit, which may not be reflected in the Consolidated Financial Statements. We do not anticipate any material losses because of these contingencies or commitments.

We may be named as a defendant in certain lawsuits or legal actions in the normal course of business. At the date of these Consolidated Financial Statements, our management team was not aware of any material actions. However, management cannot ensure that such actions or other contingencies will not arise in the future.

NOTE 4: FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or most advantageous market for the asset or liability. Accounting guidance also establishes a fair

value hierarchy, with three input levels that may be used to measure fair value. Refer to Note 2 in our 2019 Annual Report for a more complete description of the three input levels.

We did not have any assets or liabilities measured at fair value on a recurring or non-recurring basis at March 31, 2020, or December 31, 2019.

NOTE 5: SUBSEQUENT EVENTS

We have evaluated subsequent events through May 6, 2020, which is the date the Consolidated Financial Statements were available to be issued. Effective April 1, 2020, we were subject to an 8 basis point risk premium, which was triggered by a decline in our risk score. On April 24, 2020, the Board of Directors of the Association submitted a petition to AgriBank for consent to the transfer of Delta Agricultural Credit Association to the Texas Farm Credit Bank District. There have been no other material subsequent events that would require recognition in our Quarterly Report or disclosure in the Notes to Consolidated Financial Statements.
