

THE 60 YEAR PLAN

This is the plan for what people working for the Russians in this country will do on the ground prior to a Russian invasion of UK.

Peter William Maple born 4/8/1924. Died 11/1/2021. Lived between 1953 and 2007 at **26 Wallbutton Rd, Brockley SE4 2NX, then 48 Brockley Grove, SE4 1RJ.**

William Peter Heelan aged a few years older than me, (I was born 8/2/1955) Lived in Aspinal Rd, Brockley SE4 as a child. Reached the rank of Major in the British Army and worked at Morden College as Administrator. I worked there between 2005 and 2009 and he was my Manager under Major General Sir Iain Mackay-Dick (Rtd).

If MI5 could check whether Peter Maple was in MI5, and/or William Heelan was in MI5 and particularly MI5 technical Services, then it may be true that there is such a thing as 'The 60 year plan' from the end of WW2 for the invasion of Britain 'Trojan Horse Style' and the information I am giving may be of use in dealing with expected trouble.

Further to this, if it was true that there was an Anglo-Russian exchange at Breize Norton in, or just after, March 2000 involving Peter Maple and a man who had lived in his identity, then I would like to speak to MI5, because I might have further information for them.

Also, it is worth noting that my daughter Elizabeth Christiana Maple, lived with me at 14 Palm Tree House Barlborough St, New Cross SE14 5DW, until March 2000. She went to work in Peckham Police Stn as civil staff, and did not come home one day. I was told a week later she was sectioned in the Ladywell Unit at Lewisham Hospital. I spoke to Doctors but was not allowed to identify her. She certainly had nothing mentally wrong with her. I have always maintained that the woman is not my daughter. In 2007? A visiting army general to Mordon College told me my daughter had gone to Russia with Peter Maple. I have heard that more recently the woman who appeared to have taken her identity later worked in Lewisham Police Stn and called herself 'Liz Wright'. A badly decomposed body of a woman was found dead in Kent during 2001 and I claimed that one was my daughter, bank statement show she had headed to Kent and used her cash dispenser card. Kent Police, for unusual medical reasons about the body, believed she might be my daughter and passed the matter to London Police to contact me. I was threatened by London Police -a woman sergeant- to keep quiet or

I would be sectioned as well, so I took it no further. I have seen the woman about twice and 'Liz Wright' is not Elizabeth Maple.

My home was raided in March 2000 the day after my daughter disappeared, by Police and documents and word processor discs taken. I was only allowed the discs back, not the handwritten documents, and a lot had been wiped off them. Later Police reports show they were NIB – of National Intelligence Bureau interest. Possibly because details of Peter Maple were written into what I was writing as a book. When I have obtained police reports regarding things I have reported to Police, the reports say that I have 'mental health issues'. This is untrue, apart for counselling for abuse in 1974/5 which led to Guy's hospital reporting Peter Maple to Police. The 'mental health issues' on police reports seems to have stopped Police believing me before.

There have also been two Police officers who have been less than helpful: 1. Inspector Paul Herd. The husband of the Matron of Morden College and a neighbour on College grounds of Bill Heelan, and 2. a man called Jack Knowles who worked as an ASB officer for my housing provider Lewisham Homes when I got 19 ASBOs. I was not even allowed to report a repair unless it went through him which was out of order. I repeatedly asked if he was a Police Officer and was told by Lewisham Homes and Lewisham Police that he was not. I would have made a serious complaint to Police about him. I later found out he was a PC. These two Officers frequently prevented me from reporting issues to Police and it could have been them or Liz Wright who distorted any reports I made. Officers found Liz Wright to have dealt with an injury report and stopped me getting compensation.

Google: annemapple.comThe Nazis who took my Parents identities....Ch1-11...This gives a background of the problems with the identities of 'Peter Maple'. Since writing as much as I knew at the time, there is now more to be updated in it.

26 Wallbutton Rd 1955 to 1976 – when I lived there.

Peter Maple and Phyllis Maple during 1960s had very few friends and hardly kept in touch with relatives. Meetings were held in the house and plans made for such things as the Miners Strike and the Ford strike, the 1972 Bread Strike etc. I frequently overheard conversations about 'The 60 year plan'.

The people they knew included-

John (brother of Phyllis Maple nee Weir) and Anne Weir, they lived on a yacht anchored off Vancouver Island, Canada. Worked for US government caretaking Alaskan air bases. They took the nuclear bomb that went missing. It was left where it could do damage. They and Lisa Meier Hani were involved in the swan with bird flu found left on a beach in Argyll Scotland in about 2010 prior to swine flu epidemic. Anne's Mother may have lived there. They were heavily involved with Russians over the 60 year plan but so out of touch that in 2001 John Weir did not know that we no longer had 'docks' in London and could not disrupt British food supply by action at docks prior to invasion.

Kim Philby- Peter Maple came home from work one day and told Phyllis Maple that 'Kim has been caught'. She replied 'You mind you don't get caught too'. He replied that he would offer to go to Russia too. He said that he would insist that he took his family with him, and then he looked at me as if he had an idea. One day in Edmund Waller School the headmaster, Mr Holman announced to my class that I was very lucky and was going to be going to Russia with my Father. I said I was not. That day he telephoned my Father to come to the school. He faced him with me, and told me to tell my father what I had said, and I insisted that I was not going anywhere with him. Since having been in a children's home I had rarely spoken to him for years. I said that I would stay with my Grandmother, or Aunts but I was not going anywhere with a man. Mr Holman then said that he was not allowed to take me. Peter Maple did not go to Russia in the end. He got more involved with the Government and MI5. Peter and Phyllis Maple later tried to send me to Australia but were also stopped by the same school.

Mr Holman- Headmaster of Edmund Waller School- had been a Commandant in one of the Nazi Concentration Camps. As a scientist under a scheme by Queen Juliana of the Netherlands went to Russia and then came to UK. He was heavily involved in research in our school, we had the highest number of twins in the country, as well as children who had been taken from their parents and fostered locally, and had strong associations with Peter Maple but often argued with him.

Anthony Blunt- A school friend from another class Lesley Burger had been 'adopted' by her parents. Lesley like many blond haired and blue eyed children had been taken from her birth family and adopted and Peter Maple had been involved in giving her to Mr and Mrs Burger. He later abused Lesley and threatened them that he would take the child from them if they took the matter further. Mrs Burger was seriously interested in Art and, with Peter Maple who

was not interested in Art, she knew **Anthony Blunt**. She might have been Peter Maple's connection with him.

Arthur Scargill, Sir Keith Joseph, Doris Miles (MOD), People from MOD, were visitors to meetings at our home.

Anthony Slavovsky- The only Nazi to have been convicted in Britain. Worked on the underground and let people into the MI5 building meetings via the underground. NB I have been disbelieved by Police that I knew him as 'Uncle Anton' because I knew him as Anton SHER – EN – SKY. As of 2022, if Peter Maple was Bavarian, and had been taught English by the Russians, that was how Peter and Phyllis Maple would have pronounced Slavovsky.

Ise -----. Lived in Waller Rd, somewhere near the top of the hill, and came to UK from Germany during WW2. She was made 'Righteous amongst the Nations' for saving the life of her Jewish friend. She was related to Antony Slavovsky in some way, and we saw him when he was staying in her house. She is said to have fled to America sometime after Kim Philby went to Russia.

Eve Clark- a German woman who lived in Sandbourne Rd. She had been a nurse in the concentration camps and came to London after WW2. Peter Maple was the father of her son Norman Gunther Clark.

Anthony Fitzpatrick- lived in our upstairs flat. Worked at and helped organize the Ford Strike. Provided the meetings at 26 Wallbuton Rd with ground level information at the plants before the strike.

Jack Straw MP- Peter Maple caused the suicide by harassment of a man at Camberwell reception Centre for homeless men in Peckham, where he worked. He and another man were taken to court over it. Barbera Castle, Department of Health and Social Security, appointed a solicitor/barrister for Peter Maple called John Whittaker and he won the case. John Whittaker became an MP. As an MP he got access to original birth certificates for children who had been adopted. He traced his own Mother. She pointed him in the direction of our house, where he joined the queue of men who all looked like 'Clive Maple' who were arriving at our home looking for their father. Phyllis Maple persuaded John Whittaker that she was actually his mother, so they were both his parents. He asked what his original name had been, and she told him 'Jack'. He then called himself John 'Jack' Whittaker 'Straw' for the rest of his life. No idea where the Straw comes from. When he had gone Phyllis worked out that he could not have been her son, but he was Peter Maple's son. They did not tell him, and he called himself 'Jack' from then onwards. He said he had previously helped Peter Maple in the court case not knowing he was helping his own father. Jack Straw

and I never knew each other but met up in 1990s. He was heavily against me for reporting Peter Maple to Police.

Lisa Meier-Hani was an Austrian midwife in the concentration camps and girlfriend of Josef Mengele. She came to Britain, but he had already married. She delivered me when I was born. She became my Godmother. She was heavily pro Russian and Anti British. She committed suicide in 2011 by refusing to drink water for weeks until she died from heart failure, after the Swiss authorities gave her the option to commit suicide or be handed over to the Nazi hunters who had discovered her.

Harold Abrahart- an adopted child. Peter Maple is said to have discovered him living at Camberwell Reception Centre where he worked and offered him rooms at 26 Wallbuton Rd. Harold had been taken from his birth mother and given to a foster mother. Peter Maple helped him get through Goldsmith's College. He then got him into MI5 and got him a job as an accountant for Robert Maxwell. He was the accountant who ruined Robert Maxwell and it was done deliberately. The story heard in court was different from what actually happened. Peter Maple hated Robert Maxwell – he was 'a jew who had escaped and done well for himself, but he hasn't escaped me'. Ruining him was deliberate, and Harold was on the yacht when Robert Maxwell drowned. Harold said it was murder but not him 'that time'. Harold claimed to me it was him who had swum out and held 'Josef Mengele' under water until he drowned in Brazil and that Peter Maple cheated him out of a lot of the money he agreed to pay him for doing it. There was a row between 'Josef Mengele' who wanted half each, and Peter Maple who wanted all of it, over money left in the estate of Peter Maples father William Gravestock- Maple 1977. The excavation of the bones was all a big cover up. The scientist was 'William Mapples' who did the DNA testing, who was Peter (William) Map(p)le(s). When Alison Butterfield was forced by Police to move out of the flat above me due to her harassment, she shouted out that she was 'going to Gillingham to get the next one on the list'. I warned a man called Bernard Turner who had moved to New Cross about Butterfield but never thought of Harold Abrahart. He had visited me at my present address, when he told me about the man he had been paid to drown in Brazil. He said that man was not Josef Mengele, he was Peter Maple. In 2020 I discovered that could have been true. During our conversation he must have realized that he was yet another of my half brothers. That meant that he had killed his own Father he had searched so long for. He then appears to have turned to alcohol. He lost his home and somehow Alison Butterfield was involved when he was found dead in a hostel in Gillingham.

All these people had a 60 year plan of what would happen on the ground if there was a Russian invasion. As much as I know is detailed in 'The Nazis who stole my parents identities'. What I have written that the invasion would take place in bad weather, etc comes from overhearing conversations at meetings, dinners etc at our home.

FAST FORWARD TO 2005-2009.

I worked as Laundry Manager at Morden College under William (Bill) Heelan during those years. It was heavily ex military. Bill Heelan and others had a grudge against Britain because they had been sent unprepared into Iraq in 2003 and lives were lost. I often heard the 60 year plan mentioned. Bill Heelan talked freely to me about it. It was about 3 years of working for him before we discovered we were related, he was one of twins, and Peter Maple, who he was named after, was his father. We fell out when he found out I was not pro Russian like my family, and the situation turned very nasty. He accused me of being a 'loose cannon', insisted I name him as an advocate to deal with family money and tried to get me to move into Morden College. I refused and left Morden College. He was involved in buying the flat above my home and I suffered years of hell between 2008 and 2017 from the woman **Alison Butterfield** who was the leaseholder. I think he or Morden College put the money up for it. She was a small time property developer and also a psycho therapist at the Priory mental hospital. She was part of a 'dedicated ASB team that moved into our street re drugs and crime' but for no reason I was heavily targeted and Butterfield made numerous attempts to have me sectioned for no reason. It was a nightmare. I believe it was Jack Straw MP by then Secretary of State of Justice, and also a half brother the same as Bill Heelan, who organized the ASB issues. I had also tried to claim money that was mine from my trust account from Peter Maple and stop him selling the house of 26 Wallbutton Rd that was supposed to belong to me, as well as knowing too much about their involvement in Russian issues, they all wanted me shut up. Alison Butterfield flooded me out 8x- once with sewage, and the team regularly made complaints which gave me 19 ASBO letters. Each ASBO was 'the opposite' of my behaviour ie I was accused of having loud parties – in 45 years of tenancy I have never had one party. Eventually I went to the Sun newspaper and the story was on the front page of all the newspapers on 1/1/2017, and Alison Butterfield

was told to move out by Police. While Alison Butterfield was at the premises and during the time she let it out before selling it, she was involved in the 60 years plan and had Russians upstairs.

By 2005 the 60 years plan had modernized and updated from what I overheard at 1960 meetings, and what John Weir had planned about the non existent docks fr food supplies.

There were then two further incidents of people, not connected with my family, who turned out to know about the 60 year plan, as well as an involvement with Climate Change activists.

In about 2016 I ran a stall at a street party on Telegraph Hill. A woman called Taylor Shepherd helped me. (2 Heathcliffe Court SE14???) She was the daughter of Scott Shepherd, who had led the 2011 riots into Lewisham Shopping Centre. After a long tiring day without enough helpers, we set off home and mentioned that it was at least down hill to get home. I said that I used to walk the hill 4x a day to go to Haberdashers Girls School as a child. Taylor asked me why I had no contact with my family. Tired, I simply replied ‘ They are mixed up with the Russians’ which was true, but not what I might have said if not so tired. To my surprise, Taylor sprang to life about the Russian invasion called the 60 year plan. She had no way of knowing Peter Maple or Bill Heelan yet she knew, from activists at Deptford Green School, exactly what I knew.

Likewise, a man called ‘Lev’ in B&Q who regularly cut wood for me also talked about what happens ‘when the insurgents arrive’ to me (one night during pandemic shortages?.)

This is what I know about the 60 year plan from the people mentioned above but if the Police are interested I could fill out more of the details, given more time:

A country bordering Russia will be flattened, refugees will arrive from there into other countries. When the invasion occurs they will both help the 60 year plan with disruption on the ground and also create sympathy that they have fled from a war zone only to find themselves in another, to get citizens to surrender quickly out of pity. I was given to understand it will be China as well as Russia.

Various countries ie Britain will have disarmed themselves as in Czechoslovakia in 1960s, or given arms away (as in Ukraine?)

World War 3 wont start until Peter Maple is dead. For the secrets he got off MI5 and gave Russia it was written in stone that he asked for that and got it. He died January 2021. Ukraine kicked off within weeks.

A pandemic features to remove old, weak and sick. When I was at Morden College lots of trees were felled and bushes pulled out to make prepared burial grounds for when the residents died, 'as they would not be able to cremate that many'. If Covis was it, then they expected it to be far more severe, and far more to die. Bill Heelan and I argued about the use of OTEX. Google: annemapple.com...Saving the Planet Nature's Way...Ch13... OTEX. I have sent a witness statement to Covid Inquiry.

Insurgents arrive- flats will be ready for them stocked with supplies. The flats the Dedicated ASB team moved into in this street are ready for this area. They are closest to strategic points that will be targeted.

The invasion would be best in **Snowy weather** as this brings the country to a standstill but Russians are used to it. This bad **freak weather** is caused by removing as much plant matter as possible in northern countries.

Trouble will ESCALATE- ie stabbings, one, then two, then four until the streets run red with blood draining the emergency services. **Beheadings** follow stabbings follow shootings...- as in the trial run of Woolwich Barracks when the beheaded and beheader had been best friends. The 60 year plan focused heavily on not helping even your best friend like Ilsa had done. Eventually people will be glad to let the Russians come in to restore order.

Red Squares. Years prior to the invasion, workers in UK will make playground, car park areas with RED tarmac for helicopters to land on.

Food shortages, strikes, whatever will run down the country's resources will have caused deprivation and damage.

Pavements exploding- Bill Heelan's speciality! The last word as he argued with me was' Wait until the pavements start exploding and then you will know whose side you should have been on.

New Cross is a Strategic Area- main road and railway into London.

Between 2007 and 2017 various things were tried out in a trial run only once:

1. During the night men went round altering the **water mains** from Deptford to Peckham. Next day a mains burst and huge areas of Peckham flooded.
2. **Railway line damage-** I was asked by Bill Heelan to organize bombing the railway line (that was the day he found out I was not pro Russian) by Vesta Rd. Access was through the fencing of the nature reserve in Vesta Rd.
3. **Telephone Exchange** in St Mary's Rd. Knocks out traffic lights etc. They knocked out the lights in a trial run from a van outside the exchange and flats in the Frobisher flats. Butterfield bought a flat in there for her men – one called Christof.
4. Lakenall Fire was started deliberately by Butterfields men. Other fires have led to **new entry doors which come with keys attached** and a lot have been made in pro Russian factory in Portugal. 1960s idea so as not to have another Kristal Nacht with broken glass causing injuries. Were some of the germans injured that night?.
5. **Huge Sewer Damage:** The main huge Victorian Sewer which runs from Deptford to Peckham area runs right under Edric Rd. Plans were to dig down through a cellar and blow it up.
6. **National Grid:** Outside 15-17 Edric Rd is a large square manhole. Butterfield got two huge Russians to remove the cover. The managed it with difficulty. She took photos of what was inside. I asked National Grid workers what was the importance of it. They said it could not a quarter of the electricity out in SE London. I told Police but they failed to believe me. Last autumn one of the men came back to check 'everything was ready' with people upstairs. I have video evidence.

All these things are planned to happen together causing absolute meltdown, damage and destruction.

Recently Police came round re a raid for drugs/firearms. There might have been small firearms at Donna's sons house but the house of Steve Apter, Deputy Commissioner of Fire Services and leader on Fire Doors with keys has

previously had Police here when a shot was fire and a warning shouted to me. 17b has also been reported for firearms. The residents of Donnas house asked what the raid was for. They said the Police could have just knocked on the door and been let in. There was panic in this street. No 17b was heard unscrewing his bath panel and ran off with what might have been guns. No 10 upstairs moved out in a panic. I heard him say to no 11 upstairs ' All these years of planning and Anne Maple ruins it'. It was not me who gave information to the Police this time. He had a £1,200 per month flat empty and ready for 'something' and rarely came to it. No 11 downstairs has moved out. Neighbours say other flats are empty and 'ready for something' but no one has moved in. People seem to be panicking and expecting some big trouble to happen. More than Canada Water trouble....There are signs that it could be to do with this '60 year plan'. It is difficult to get information to the Police, Met Website don't reply, Front desk at Lewisham wont let you speak to an officer. One man has written to Vicky Foxcroft MP. I am sending this to MI5. Anne Maple
