

# Green Spray Cleaner 400

## **DESCRIPTION:**

Green Spray 400 is an environmentally safe mixture of alkali and wetting agents designed as an all-metals cleaner for use in spray wash applications. Green Spray 400 will clean light oils and grease from machined parts and can be operated at high temperatures. This product contains no phosphates, butyl or nitrates and is specially formulated to meet tight safety and environmental requirements.

## **USE:**

Green Spray 400 can be safely used on a wide variety of metals. The preferred method of use is spray washer for removal of light oils, but can be used in ultrasonic applications for removal of heavy oils from steel and stainless steel. Green Spray 400 can also be used in agitating tanks for removal of Light or Heavy oils from aluminum, zinc and brass. All methods listed are dependent upon the intensity of soils being removed and the aggressiveness of the equipment being used.

**CONCENTRATION:** 2.0 – 4.0 oz./gal. (15.2 – 60 ml/l)

**pH:** 9.8 to 10.5 of the concentrate
