other sources. Going with a family run business like Spectra made me feel very comfortable. Tony, Kathy and their entire crew were professional and made construction a breeze. They were accommodating of several changes that needed to be made during construction and finished the project on schedule. I would highly recommend Spectra Builders for your next construction project.”

Spectra Builders is currently working on an office next door to Cary Vision Care for Dr. Susan Orenstein. We also are in the process of doing work for Progress Energy in their corporate headquarters, Wake County, BD Technologies, URS, and Triangle Eye Care in Raleigh, owned by Dr. Glenn Klaus. If you need construction work done, no matter the size, please give us a call.
