OCTOBER NEWS

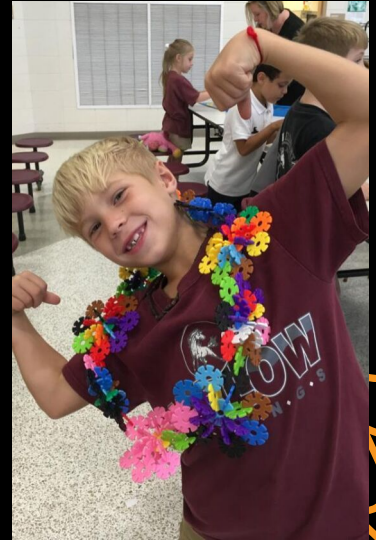

Throughout September, students enjoyed focusing their STEM knowledge on building activities. Students were challenged to model different types of architecture and bridges using Legos or Brain Flakes. These challenges helped strengthen problem solving and critical thinking skills and allowed students to apply their previous knowledge from core subjects.

Focus for October:

This month, our team plans to engage with your child in mathematics enrichment activities to enhance the skills that students have acquired thus far during the school year. Activities include "Number Review" and "Give Me a Minute".

Teacher Spotlight:

Karysn Benton -
Group B

What is your favorite activity to do with your group at LEAP?

"Gym activities are my favorite."

Where do you see yourself in the next 5 years?

"Hopefully working in a lab with my Criminal Justice degree."

What is some advice you would like to give your students?

"Always be your best self!"

Student Spotlight: Kale Purdy - 1st Grade

What is your favorite LEAP activity?

"Playing with Knex."

What do you want to be when you grow up?

"Train driver."

What is your favorite food?

"Spaghetti."

What is one interesting thing about you?

"My dad and my mom take me to the mountains."
