Low Down 04

Oh my, Life has passed me by
The country I was brought up in
Fell apart and died

Oh no, Love's no longer there
Cold wind blew away the sun
That used to warm the air

Lowdown Ooo! Feelin' pretty bad
Feelin' like I lost the best friend
That I ever had

Lowdown Ooo! Got to find a way
Got to make the people see
The way I feel today
