

# FreeStyl™

## Extreme Range Scalable Cordless Phone Systems

EnGenius FreeStyl Systems are scalable 900 MHz cordless phone systems designed to provide users with unparalleled wireless coverage over long distances and in complex, multi-floor environments. They combine a sleek design, robust and powerful technology, and an array of key features that make them perfect for use in offices and large home estates.

FreeStyl phones are ideal for businesses with employees who roam beyond the confines of their offices or cubicles. They are especially useful for expansive properties (farms, ranches, resorts, luxury estates), where owners or staff need to stay connected over extended distances.

FreeStyl is the perfect choice for users who do not require the rugged DuraFon, and prefer something with a little more style.

### Users may include:

- Large Home Estates
- Farms and Ranches
- Home Associations
- Apartments
- Condos
- Resort or Vacation Homes

### Key Features:

- Scalable: Supports up to 9 Handsets (Sold Separately; Add Anytime)
- High Power/Sensitivity for Extreme Wireless Range And Connectivity
- Outperforms 2.4 or 5.8ghz DECT Solutions
- 2-Way Intercom
- Speakerphone
- Simultaneous Broadcast to Multiple Handsets From Any Handset

## Extreme Range Coverage

Up to 25,000 sq. ft. of facility coverage; up to 6 floors in-building penetration.

## Outperforms 2.4 or 5.8GHz DECT solutions

High power/high sensitivity coverage penetrates concrete, wood and drywall.

## Scalable System

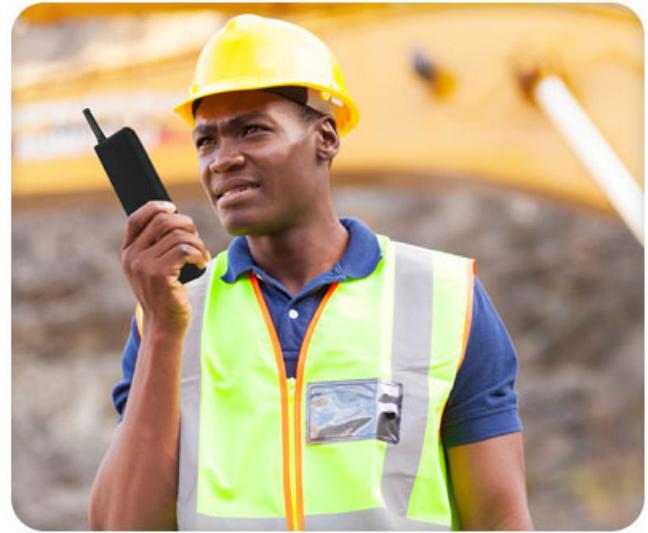

This one-line system is expandable to 9 total handsets.

## Versatile

FreeStyl phones incorporate speakerphone capability and 2-way radio/wireless intercom. The intercom is private and secure and works as a two-way radio handset-to-handset or handset-to-base.

## Business-Friendly Features

- Simultaneous broadcast to multiple handsets from any handset.
- Plug directly into a phone jack on the wall or the analog port of a PBX.
- Option to operate as a standalone system or as a long-range cordless analog extension to a PBX phone system.

## Versatile

FreeStyl phones incorporate speakerphone capability and 2-way radio/wireless intercom. The intercom is private and secure and works as a two-way radio handset-to-handset or handset-to-base.

## No Recurring Costs

No subscriber contracts (unlike cellular or 2-way radio licensing). No monthly service charges or fees (unlike cellular and phone companies).

## FreeStyl System Features

### Long-Range

6 Floors In-Building Penetration  
25,000 sq. ft. of Facility Coverage  
10 Acres of Property, Open Land Coverage

### Handset Features

Telephone  
2-Way Radio  
900 MHz DSS, Frequency Hopping  
Broadcast/Push-to-Talk  
Call Hold  
Call Logs: Dialed & Received  
Call Transfer  
Call Waiting  
Caller ID  
Headset Jack (2.5mm)  
Intercom (Handset-to-Handset, No Group Chatter)  
Keypad Lock  
Message Waiting Indicator (FreeStyl1)  
Mute  
Phone Book/Speed Dial: 50 Entries  
Redial

### Handset Features continued

Selectable Handset Grouping (7 Groups)  
Silent Ring  
Speakerphone  
User Handset Naming  
User-Programmable PBX Functions (9 per Handset)  
Vibrate Mode

### Ports

Flexible Port Dedication: Single, Group, or All  
PBX Compatible  
PTSN (RJ11) Ports: 2 (1 telephone, 1 line)

### Call Features

Ring Group/Hunt Group Support  
Conference Calling  
Modifiable Flash and DTMF Timing  
Base Station Speakerphone (FreeStyl1)  
Base Station Dialing/Speed Dial (FreeStyl1)  
Base Station Intercom/Broadcast to Handset (FreeStyl1)

### Configuration

# Talk Paths: 1  
# Supported Handsets per Base: 9  
# Total Handsets Supported: 9  
# Concurrent Calls per Handset: 1  
# Simultaneous Calls per Base Unit: 1

### Battery and Charger

Li-Ion technology  
Hours of Talk Time  
Hours of Stand-By Time  
Hours Recharge Time 3  
Handset and Spare Battery Charging Slots  
Battery hot-swap with call on hold

### Optional Equipment

Spare Battery  
Outdoor External Antenna Kit for Base Station (including antenna & cable)  
Indoor External Antenna Kit for Base Station (including antenna & cable)  
Lightning Protection Kit

## FreeStyl System Features continued

### Optional Equipment continued

High-gain handset antenna (Long antenna)

Headset

Antenna Splitter

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference, the user is encouraged to try to correct the interference, see User Manual for additional information. Base Station: This equipment complies with FCC radiation exposure limits and should be installed and operated with minimum distance 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. Handset: This equipment complies with FCC radiation exposure limits. End users must follow the specific operating instructions for satisfying RF exposure compliance, to do this, please follow operation instruction as documented in the User Manual. This device complies with RSS-210 of the Industry Canada Rules and with IC radiation exposure limits.
