Building Vital Energy

Progress Energy of the Carolinas, headquartered in Raleigh, N.C., recently decided to do some renovations in their existing downtown headquarters building, awarding the contract to Spectra Builders. The scope of work included creation of a new computer room and offices for the electrical backup facility, along with new space for the printing and mailing of customer invoices. Among the equipment installed were UPS systems and advanced HVAC and fire sprinkler systems.

Key subcontractors who contributed to the project included:

- Precision Walls
- Interiors Unlimited
- Floorscape NC
- Colin Fairweather & Sons
- Travco Plumbing
- Piedmont Air Conditioning
- Watson Electrical
- Crawford Sprinkler Co. of Raleigh.

Once again, Woody Magoon managed the job in a safe and efficient manner, delivering a quality project to a satisfied client.

Spectra's New Year's Message

The past year has been another challenging one for many of us. The hoped-for economic recovery has been slow to develop, causing continued strain on individuals, families and businesses, and sapping our confidence in the future.

Nevertheless, we all have much to be thankful for and should take time to appreciate our individual blessings. As a business, we are grateful for our dedicated, hardworking employees, outstanding building team partners, supportive corporate friends and, of course, our loyal clients, who are the reason our company exists.

Our nation has experienced tough times before, and we've always risen to the occasion, battled our way through our problems, and emerged better and stronger. This time will be no different.

On behalf of the entire Spectra Builders team, we hope you had a safe and healthy Christmas season and wish you a new year filled with happiness, hope and great opportunity.

Spectra On the Go

At Spectra Builders, we continue to be active in our local area in a number of ways. Over the past few months, the company and its employees have been involved in quite a few community and non-community-related events. Spectra sponsored a hole at the Zebulon Chamber Golf Tournament in May and also participated in the Zebulon Business Expo in September. We have recently also sponsored booths at Blue

Book Showcases in Raleigh and Concord, N.C. Chief estimator Tommy Laughlin was a member of the winning team in the Green Builders Golf Event, held at the Lonnie Poole course at NCSU this past summer. Spectra also continues to sponsor local events, such as Special Olympics of North Carolina.

We believe it is our duty to support the community that supports us.
