Tele-Behavioral Health Protocol

Veteran/Client: Please do the following 48 hours prior to the Telehealth Session

1. **Please fill out this entire sheet as best as possible.** Please make sure addresses are fully written out (e.g. number, street, apt/suite # if applicable, city, state, and zip code). **Send this back to me ASAP before our Telehealth session.**
2. **Please also sign and return the Telehealth Informed Consent PDF** sent to you (also available online at <http://www.mikeeverson.net/gallery.html>). **Send this back to me ASAP before our Telehealth session.**
3. Per the request of the VA/TriWest and for good measure for all clients, within 48 hours of our Telehealth session, with your computer and webcam, please go to <https://doxy.me/eversontherapy>, put in your name, then click on "Pre-call Test" on the lower left corner of the screen (looks like the button seen to the right here →). This will run a test of how your system will work with Telehealth. **Once finished, please let me know if any problems are being noted so we can fix them.**
