

## Guidelines for Entry Submission

The Prix Galien - 2020 Research will be awarded to the researcher or the research team judged by the Jury to have made the most significant contribution to research leading or making a substantial contribution to the diagnosis, prevention or treatment of disease in Canada.

## Eligibility

The Prix Galien is open to any person or team who has been involved for at least the last five years in research leading or making a substantial contribution to the diagnosis, prevention or treatment of disease. Candidates from academia, health care institutions, research centers and industry are eligible.

Innovation Life, appointed organizer of the award, guarantees that all information will be held in strict confidentiality and will be available only to parties involved in the adjudication of the award.

## Submissions

Entry submission is mandatory. Candidates are required to submit their application to [sylvie.jacques@prix-galien-canada.com](mailto:sylvie.jacques@prix-galien-canada.com).

This application must include:

- The entry form duly filled and signed by the Chief Executive Officer of the Company, the Director of the Institution or the Dean of the faculty.
- A description of the research (see instructions on page 3)
- A one-page resume of each researcher, as well as their complete curriculum vitae
- A letter of recommendation

## Deadline

The deadline for submissions is **May 30th 2020**.

**The decision of the Jury is final.**

## Entry Form

### Researcher(s) Name

### Company, Institution or Faculty

Name:
Address:

### Registration approved by

Name:	
Title:	
Telephone:	Fax:
Email:	
Date:	Signature:

## Application Instructions

The submission must be written on letter-size paper and consists of seven sections:

1. **Rationale for the application** (max. 3 pages)  
Give a brief overview of why the researcher or the research team is recommended, e.g. innovative and unique aspects of the research.
2. **Background of the research and the research program** (max. 3 pages) Outline the context and the development of the research program. Summarize its goals and mission. List the major agencies which have supported the research.
3. **Overall value of the research program** (max. 3 pages)  
Describe the achievements of the researcher or research team which are relevant to pharmaceutical research. Outline the potential for future pharmaceutical discovery. Describe the impact of the research program on the training of young scientists.
4. **Impact of the research on human health** (max. 3 pages)  
Outline the impact and benefits of the research on human health. Provide evidence upon which these conclusions have been reached.
5. **Curriculum v i t a e o f the researcher or each research team member with a one-page resume**
6. **A letter of recommendation**
7. **The entry form duly filled and signed**

## Appendix:

Five (5) published original articles about the research including no more than one (1) review article.
