

Town of Waterford

Technology Policy - Effective August 14, 2017

The Town computer system(s) is to be used by employees for the purpose of conducting Town business. Occasional, brief, and appropriate personal use of the Town computer system is permitted, provided it is consistent with this policy and does not interfere with an employee's job duties and responsibilities.

Employees should have no expectation of privacy regarding anything created, sent or received on the Town computer system. The Town may monitor any and all computer transactions, communications and transmissions to ensure compliance with this policy and to evaluate the use of its computer system. All files, documents, data and other electronic messages created, received or stored on the Town computer system are open to review and regulation by the Town and may be subject to the provisions of Vermont's Public Records Law.

Employees may not introduce software from any outside source on the Town's computer system without explicit prior authorization from their supervisor. Employees may be held responsible for any damages caused by using unauthorized software or viruses they introduce into the Town computer system.

Employees who have a confidential password to access the Town's operating system should be aware that this does not mean the computer system is for personal confidential communication, nor does it suggest that the computer system is the property of that person.

Transmission of electronic messages on the Town computer system shall be treated with the same degree of propriety, professionalism, and confidentiality as written correspondence. The following are examples of uses of the Town computer system which are prohibited:

- Communications that in any way may be construed by others as disruptive, offensive, abusive, discriminatory, harassing, or threatening;
- Communications of sexually explicit images or messages;
- Transmission of chain letters or solicitations for personal gain, commercial or investment ventures, religious or political causes, outside organizations, or other non job-related solicitations during or after work hours;
- Access to Internet resources, including web sites and news groups, that are inappropriate in a business setting;
- Any other use that may compromise the integrity of the Town and its business in any way.

Email messages that are intended to be temporary, non-substantive communications may be routinely discarded. However, employees must recognize that emails sent, received, or stored on the Town computer system are subject to Vermont's Public Records Law and may be covered by the State of Vermont's retention rules and disposition schedules for municipal records.

For purposes of this section, "computer system" means all smart phones, computer-related components and equipment including, but not limited to, host computers, file servers, workstation terminals, laptops, software, internal or external communication networks, the world wide web (www), the Internet, commercial online services, bulletin board systems, back-up systems and the internal and external e-mail systems accessed via the Town's computer equipment.

The Town of Waterford Selectboard has reviewed and adopted this 'Technology Policy' on August 14, 2017.

Gary Allard, Chairman
Waterford Selectboard

Brent Beck, Selectman

Fred Saar, Selectman

The image shows three handwritten signatures in black ink, each written over a horizontal line. The first signature is the most stylized, the second is more legible, and the third is the most cursive.
