

Industrial “Hands-on” Experience

“Automation and Sensor Technology”

at

Hastest Solutions Inc.

Unique opportunity for students to have hands-on industrial experience

Venue:

Hastest Solutions Inc.

2139 S 10th Street, San Jose CA 95112

Course Dates

Aug 19,20,26,27, Sep 2

For Registration call at

609 – 558 1227

Course at
Hastest Solutions Inc.
Aug-Sep 2017
9:00 am to 5:00 pm

Who should Attend: High school and College Freshman/Sophomore

Course Duration: Five Full Days (three weekends in Aug and Sep)

Why this course:

- Sensor technology and automated data acquisition is equally applicable in all fields of engineering, pharmaceutical, and medical industry
- At the college level, this course, in various forms is offered as a lab program (e.g. See ME120 Lab course, Eng. 10 programs). Having a prior knowledge of this technology, will allow students to perform significantly better
- Participation in Synopsys 2018 is guaranteed

Additional Benefits for College Applications/Resumes

- On successful completion of this program, IntelliScience and Hastest Solutions will issue a certificate that can be mentioned in the resume
- Join a six-month research program (once a week) to conduct research on a specific topic; present it in a student conference as a research paper. Enrolling benefits in this program include mentioning this research on college applications

Course Contents

- Introduction to sensor technology – Temperature, Humidity, Pitot tubes, Optical system, Spectrometers
- Conduct experiments in Hastest Test Chambers
- Learn Data acquisition and data analysis techniques
- Prepare conference posters and research papers

- Hastest Solutions Inc. in the fastest growing provider of high quality solutions in the field of reliability testing. Hastest Solutions has built a reputation for providing testing chambers with a degree of sophistication
- IntelliScience Training Institute is unique provider of STEM based programs at all levels of education. Engaged in offering programs at various locations in Bay area since 2015
