Self-Pay – For patients with no Medicaid, Medicare, or Other Insurance Coverage: You will be billed directly for the services you receive. To determine ability to pay and/or eligibility for a fee reduction, you must show proof of income by bringing in verification of your total household income AND sign a financial form within two weeks of your first appointment. To establish the annual income, the following documents may be requested:

- Current paycheck stub(s);
- Employee's W-2 form(s);
- Wage tax receipts
- Federal income tax return;
- Self-employment bookkeeping records;
- Employer wage records;
- Statements from employers;
- Alimony/child support documentation;
- Documentation of your retirement income, social security, unemployment compensation, insurance annuity, etc.;
- Signed statement that the patient is the beneficiary of a trust or other source of income/funding for your health care expenses. and/or
- Employment Security Office Documentation.

If you do not bring in this information within the set amount of time, you will be charged full fee and will be responsible for payment.

Patients are required to provide proof of income at least annually. If you do not bring in your updated income information, your fee reduction will be discontinued and you will be charged full fee until documentation is provided.
