

When we get married 250

And there'll be flowers baby, for you and me
Just wait and see, and everyone is gonna come
And there'll be sunshine baby, in every room
That afternoon when we get married

Chorus When we get married (When we get married)
When we get married (When we get married)
When we get married (When we get married)
When we get married

And there'll be church bells ringing everywhere
And this I swear it's gonna be, for you and me
And in the chapel baby, you wear my ring
And everything, when we get married

Chorus

I know there'll be some happy tears that day
When we are standing side by side
And when your daddy gives his little girl away
Your mamma is gonna break right down and cry

-----Instrumental interlude -----

Chorus
