

A MOTHER'S LOVE

*When I was just a baby and I didn't understand
The warm and tender feeling as she held me in her hands
Then when I was older and I needed my best friend
The warm and tender feeling came to comfort me again*

*A mother's love a sign that there is truly god above
A haven for a child when the world is cold and cruel
Mother's here for you a mother's love*

*Many years have passed I have children of my own
The warm and tender feeling still a comfort in my home
Now I have a grandchild and I truly understand
The warm and tender feeling as I hold her in my hands*

*A mother's love a sign that there is truly god above
A haven for a child when the world is cold and cruel
Mother's here for you a mother's love*

*A mother's love a sign that there is truly god above
A haven for a child when the world is cold and cruel
Mother's here for you a mother's love*

*When the world is cold and cruel
Mother's here for you a mother's love*
