

TeleBehavioral Health Financial Agreement Addendum
2021

I understand that billing for TeleBehavioral Health video-conferencing sessions will be submitted to my managed care insurance company in the same fashion as office visit sessions.

I also understand that if my managed care company does not cover Tele-Behavioral Health benefits, I will be responsible for payment.

The established fee for TeleBehavioral Health sessions not covered by insurance is \$75 as of January 1, 2021.

My signature indicates that I agree to pay to pay \$75 for each TeleBehavioral Health session not covered by my managed care company.
