Safety consultants travel throughout the country conducting a variety of safety services including training. Please contact us today for assistance with your safety program.

Class Descriptions

Confined Space Training

Held in March, 1 PM – 3 PM.....\$75 per student

Course topics include safety and health hazards associated with confined space entry, and the evaluation, prevention, and abatement of these hazards. This course will apply to the construction and general industry. The differences in the standards will be presented.

OSHA 30 Hour Certification for the Construction Industry

Held in February, June, and October.....\$425 per student

This course is intended to provide a variety of training to workers with some safety responsibility. Training focuses on hazard identification, avoidance, control and prevention. Required topics include Introduction to OSHA, Focus Four (falls, electrocution, struck-by, and caught-in or between), Managing Safety & Health, PPE, Health Hazards, Stairways & Ladders, and elective topics. Elective topics are chosen depending upon trainer's choice and relevancy to the attendee's type of construction work. This course requires the successful completion of a test to confirm knowledge on subject matter. Test is only available in English.

OSHA 10 Hour Certification for the Construction Industry

Held Every Other Month, 12 PM – 5 PM Day 1 and 7 AM – 12 PM Day 2.....\$175 per student

This training program is intended to provide entry level construction workers information about their rights, employer responsibilities, and how to file a complaint as well as how to identify, abate, avoid and prevent job related hazards on a construction site. The required topics for the 10 Hour OSHA course include: Introduction to OSHA, Focus Four (falls, electrocution, struck-by, and caught-in or between), PPE, Health Hazards, and elective topics. Elective topics are chosen depending upon trainer's choice and relevancy to the attendee's type of construction work. This course requires the successful completion of a test to confirm knowledge on subject matter. Test is only available in English.

1st Aid/CPR Certification

First Friday Every Other Month, 8 AM – 12 PM.....\$75 per student

Topics include 1st Aid Care, CPR, AED, and Bloodborne Pathogens. 2 year certification through Medic First Aid is received.

TN Drug Free Workplace Supervisor Training

First Friday Every Other Month, 1 PM – 3 PM.....\$50 per supervisor

This training meets the requirement set by the Tennessee Drug Free Workplace Program (0800-2-12.13 Substance Abuse Education/Awareness). Topics include recognizing the signs of substance abuse in the workplace, how to document and collaborate signs of employee substance abuse, and how to refer substance abusing employees to proper providers for treatment.
