

Services > Equipment Acquisition

## Equipment Acquisition Assistance

TCI determines the **most economical and practical** equipment for your specific operating requirements. **Our experience in vehicular engineering and design is unparalleled.**

We help our clients acquire all types of equipment, from **small parcel delivery trucks** to the **largest tractor/trailer combinations**, from material handling equipment to Management Information System hardware. We negotiate major purchases with every original equipment manufacturer in the United States. **We routinely help our clients save substantial dollars on their vehicle acquisition costs.**

At the end of their useful life cycles, we even determine the best method to dispose of your old vehicles in order to maximize their asset recovery values. [Find out how we can trim thousands of dollars per year from your equipment costs.](#)
